User manual*1

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference that may be received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the responsible authority may void the user's warranty to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules, which provides for certain protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is advised to take one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.

The following conditions can cause malfunctions, such as slow charging in the charging position, stopping charging and over temperature.

- 1.The adapter is not up to standard (no computer USB output power).
- 2.The charging cable is not up to standard.
- 3.Smartphones do not support wireless charging capabilities.
- 4.There is metal on the back of the phone.

 Attention

1. Keep the charger away from water or other liquids.
2. If you need to clean the charger, make sure it is not connected to the power supply.
3. Use the ambient temperature to maintain again 0~45°C.
4. Please use a QC3.0 or higher adapter to charge your phone, headset and watch at the same time.
