

Solder Board-Component View 12	 A photograph of a green printed circuit board (PCB) component, labeled '12', mounted on a blue textured surface. The component is rectangular with a central circular feature. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically and horizontally, providing a scale for the component's size.
Solder Board-Component View 13	 A photograph of a green printed circuit board (PCB) component, labeled '13', mounted on a blue textured surface. The component is rectangular with a central connector or port. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically and horizontally, providing a scale for the component's size.

Solder Board-Component View 14	 A photograph of a green printed circuit board (PCB) component, labeled 'OS20C10v1.2', mounted on a blue textured surface. The component is rectangular with a central square area containing a microchip. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with the component's length corresponding to the 100 mm mark.
Solder Board-Component View 15	 A photograph of the same green PCB component, labeled 'OS20C10v1.2', mounted on a blue textured surface. The component is rectangular with a central square area containing a microchip. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with the component's length corresponding to the 100 mm mark.

Solder Board-Component View 16	 A photograph showing a rectangular yellow and white battery component. The battery is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The battery has a white label with some text and a small logo. Two red and black wires are connected to the battery, with a white connector at the end.
Antenna View	 A photograph showing a green printed circuit board (PCB) with various electronic components. A black rectangular antenna is connected to the board by a black cable. A red box highlights the antenna, and a red line points to it from a label "WIFI Antenna" in a red box. The PCB is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
