

 T1 Mechanical Dual-mode Number Keypad  www.teenii.com customerservice@teenii.com	Keypad Data: Size: 171.7x169.5x39.78mm ±1.0mm Weight: 477.5±20.0g Lithium Battery: 500mAh Connection Method: 1.8M wired / BT 3.0 /BT 5.0 BT Pairing name: ①Teenii3.0 ②Teenii5.0 BT Frequency: 2402MHZ-2480MHZ (±120KHZ) BT input: 3.7V, Working current: 26mA Type-C wired input: 5.0V Working current max: 300mA Auto sleep mode : 3 stages 1.In BT model, stop working for 60seconds, working current 1.2mA 2.In BT model, stop working for 70seconds, working current 0.3mA 3.In BT model, stop working for 30mins, working current 0.15mA Note: Press 1-9 keys to wake up keypad to work and BT takes 1-2 seconds to connect again. Compatibility System: Windows7 ●Windows8 ●Windows10 ●Mac OS X10.4 OR later	 Wired/BT Switch button 有线/蓝牙切换开关 Wired green Indicator 有线 指示灯 BT Indicator 蓝牙 指示灯 Num lock 数字锁定 指示灯 Charging Low Voltage Indicator 充电/低电压 指示灯 Keypad bracket 键盘支架 Power Switch OFF /ON 电源开关 TYPE-C Charging port Type-C 充电口	Function Switch button: switch between Type-C wired and BT function 1. ● 短按切换键进入Type-C有线模式: TYPE-C有线绿色指示灯亮起, 键盘以有线模式工作。 2. ● BT 短按切换键进入蓝牙模式: 蓝色指示灯闪烁, 进入蓝牙模式。 3. 在设备上搜索“Teenii3.0 / Teenii5.0”, 根据设备选择任一蓝牙进行配对即可。配对成功后, 蓝色指示灯常亮。(备注: 在windows7或老的系统下, 蓝牙配对只显示Teenii3.0) How to pair with your devices through BT. 1.Short press [BT] switch to go into BT mode, and the Blue indicator twinkles. 2.Long press [BT] for 2-3 seconds, the blue indicator twinkles quickly and the keypad is in pairing mode. 3.You will find pairing code “Teenii3.0 / Teenii5.0” on your device. Just choose one of them to complete the pairing. When the keypad is paired with the device successfully, the blue indicator will stop twinkle and stay on. (Note: For win7 or old systems, only one pairing code “Teenii3.0” will be shown) Number Lock Button (open/close number input) A) ● 1 Open keypad number input, Number Indicator is on. B) ● 1 Close keypad number input, Number Indicator is turn off. (Note: The Number Lock Button works with Windows/Android system but doesn't work with iOS/Mac system.)	Charging & Low Voltage Indicator 1. ● 当电池电压低于3.1V, 低电压指示灯红灯闪烁, 提示电池电量不足, 需要对设备进行充电; 当电池电压低于2.4V, 设备停止工作。 2. ● 当TYPE-C 数据线插入充电口, 充电指示灯常亮, 提示设备正在充电中 3. ● 当设备完成充电, 充电指示灯绿灯常亮 32-KEY PROGRAMMABLE & MACRO Except for the switch button [BT], all of 32 keys are programmable and can be set macro. Please download the APP from www.teenii.com. (Note: We now only have Windows version for the APP, you can set the keypad on Windows and then connect to the Mac system to use it if you want, the key setting will be kept with the keypad and you can use the keypad with any devices.) 	FCC Warning Statement Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. The device has been evaluated to meet general RF exposure requirement.
