

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

Solder Board-Component View 1	 A photograph of a small electronic circuit board (likely a module) placed on a blue textured surface. The board is surrounded by a black ruler with white markings in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom. The board features various components, including a central microcontroller, several integrated circuits, and a USB connector on the right side. The board is positioned such that its top edge is aligned with the 10 mm mark on the vertical ruler.
Antenna View	 A photograph of the same electronic circuit board as in the first image, showing the antenna view. A red rectangular box highlights the top-left corner of the board, and a red line points from a label to this box. The label is a white rectangle with a red border containing the text "WIFI + BT Antenna". The board is placed on the same blue textured surface, and the same black ruler with white markings is visible, oriented vertically on the left and horizontally at the bottom. The board's top edge is aligned with the 10 mm mark on the vertical ruler.
