

Long press 5 seconds turn on/off, short press back.

Return button

Wireless Charging

- ①Search "FitCloudPro" in the APP store (Apple store/Google store).
- ②Scan QR code to download.

Exercise information: record various exercise information and data.

② Touch this button to open Audio function.

The bath water temperature is relatively high, it will produce a lot of water vapor, and the water vapor is gas phase. Its molecular radius is small, it is easy to infiltrate from the shell gap of the watch, and when the temperature drops, it will recondense into a liquid phase. Water droplets can easily cause short circuit

Special attention: For other issues of watch' s usage, you can get detailed answers in the app suggestion feedback.

Basic parameters			
Device type	Smart bracelet	Battery type	Lithium olymer
Vibrating motor	Support	Synchronization mode	Bluetooth 5.0
Working Temperature	-10℃~50℃	Sensor	Low power accelerometer
System require	Android 4.4 with above; ios 7.1 with above

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
