

Bedienerführung

AGE 6+

1. Fernbedienung

- ① Programmier demonstration
- ② Auto-Demonstration
- ③ Kontrollleuchte
- ④ Vorwärts rückwärts
- ⑤ Biegen Sie links ab
- ⑥ Biegen Sie rechts ab
- ⑦ Turm links abbiegen
- ⑧ Turm rechts abbiegen
- ⑨ Schalten
- ⑩ Raketenstartgeräusch
- ⑪ Schussgeräusche

Die Fernbedienung verwendet 2 x 1.5 V AA-Batterien

2. Verwendungsmethode

1. Open the battery cover on the bottom of the tank, install the battery (included) in proper direction, cover it. Turn on the power switch; the flashing status of the power indicator on the top of the tank indicates that it is in pairing.
2. Open the battery cover of the controller, install 2X1.5V AA battery (not include) in proper direction, cover it. When the switch is turned to on and the red light is flashing, it means it is in pairing. After pairing has been successful, the car light is on for a long time and the controller light is off. It's time to play it.

3. Fahren mit Fernbedienung

§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
