Safety information

 To prevent fire, shock hazard and potentially hazardous situations, please refer servicing and installation to qualified personnel only.

 **USE ONLY IN CARS WITH A 12 VOLT NEGATIVE GROUND.**

Make sure to ground the unit to a negative 12V DC power supply. DO NOT connect the unit to DC 24V.

 If you connect the ignition wire (red) and the battery wire (yellow) to the car chassis (ground), you may cause a short circuit, which in turn may start a fire. Always connect those wires to the source running through the fuse box.

 For Safety, make sure to insulate any loose wires with electrical tape.

 Using the head unit for a long time with the engine off can drain the battery.

 Do not watch or fix your eyes on the unit's display when you are driving for any extended period.

Do not listen to loud music while driving. Excessive volume levels that obscure sounds such as emergency vehicle sirens or road warning signals can be dangerous and may result in an accident.

 Do not install the unit in a spot exposed to humidity or water.

 Never leave any metal objects (such as coins or metal tools) or liquid inside the unit. In case it happens, please turn the car ignition off to avoid short circuits or fire and consult your mechanic or customer support.

Safety information

 If you hear strange noises, smell strange odours, and/or detect smoke from the product, immediately turn the car ignition off and unplug the product to avoid short circuits or fire.

 Do not disassemble or modify the product in any way. Doing so may result in fire. If you experience problems during installation, consult your mechanic or customer support.

 Do NOT block vents or heat dissipation panels. Doing so may cause heat to build up inside and may result in fire.

 Please remember that although the navigation system/parking/reversing sensors are there to make your driving easier and safer, they are not a substitute for the driver's attention and judgement. The driver is always responsible for ensuring the car is driven in a safe manner, at the appropriate speed, at an appropriate distance from other vehicles, and in accordance with current traffic rules and regulations.

 Please keep the manual in a safe place, close to the product for future reference.

General Warnings

 The head unit is not a toy. Do not allow children to play with, on, or around the product. Close supervision of children is always necessary.

 Turn off this unit in locations where inflammable gas or strong magnetic fields are present, (for example a petrol station) as it may cause an accident.

 Do not place heavy or dangerous objects on the screen.

 To avoid electric shock, fire, serious injury, or product damage, do not expose the product to humidity or splash water directly onto the product.

 To ensure safety, the wiring and installation of this unit requires technical skill and experience. If airbags or any other shock-absorbing safety equipment is in your car, before installation contact a professional car electrician or dealer you purchased this unit from.

 When navigating, carefully compare information displayed on the navigation system to all available navigation sources, including information from street signs, visual sightings, and maps. Always operate the vehicle in a safe manner. Make sure to not become distracted by the navigation system while driving. For safety, always solve any problems or distractions before driving. We shall not be liable for problems or accidents resulting from failure to observe driving conditions.
