

Functions

Steering Wheel Control

To use the steering wheel remote control feature, you need to perform the steering wheel control settings on this head unit. Sometimes a special adapter (not included) is required to match it to your car.

● Setup Steps

From the Home screen, go to Settings --> Car Settings --> Steering Wheel Setting

RESET

Clear all the settings before starting a new setting.

SAVE

Save the settings after the new setting.

Touch the desired function key on the screen, press function button on the steering wheel: wait for the display reading to give a steady read out (the button light is on).

Repeat this process until all relevant functions are programmed.

Functions

Phone Link

● iPhone

Mirror your iPhone to the screen by Car Auto Play to access the maps and other apps on your phone.

● Android SmartPhone

Mirror your Android smartphone to the screen by Car Auto Play to access the maps and other apps on your phone.

Functions

● For iPhone

To use wireless CarPlay, please follow below steps:

1. Go to Settings > Bluetooth, and then turn Bluetooth on.
2. Select the head unit's Bluetooth name from the list. Enter the password 0000 when prompted. When the iPhone is connected to the CarPlay of the current car for the first time, a dialog box will pop up, click Use CarPlay.
3. After successfully connecting Bluetooth, wait for about 4 to 5 seconds for Car Auto Play to load.
4. After successfully loading, Car Auto Play will show as below:

Note: To use wireless CarPlay, your iPhone must have iOS 12.0 or above.

Functions

● For Android SmartPhone

To use wired Android Auto, please follow below steps:

1. Install the “Android Auto” APP to Android Smartphone.
2. Open Car Auto Play, connect your Android smartphone to this unit via a USB cable then Car Auto Play will automatically load.
3. After successfully loading, Car Auto Play will show as below:

Note: To use wired Android Auto, your Android smartphone must be able to install Google services, Google APPS and Android Auto application.

Troubleshooting

Q: The unit does not turn on.

A: 1. Reset the unit and reconnect.

2. Check the connection with multimedia and test the ground (black), constant 12v (yellow), and accessory 12v (red) wires to see if you have the correct voltage in the correct wires, as well as a good ground.

3. Check if the fuse blows.

4. Check your vehicle wiring diagram and make sure everything is connected according to the diagram.

Q: Radio Auto searching does not stop.

A: switch off AF & TA.

Q: Bluetooth pairing constantly connects and disconnects.

A: 1. The Bluetooth reception is poor. Move the mobile phone closer to the unit.

2. Remove any obstacle between the mobile phone and the unit.

3. Some mobile phones may connect and disconnect constantly when you make or end calls. This does not indicate any malfunction of the product.

4. For some mobile phones, the Bluetooth connection may be deactivated automatically as a power-saving feature. This does not indicate any malfunction of the product.

Q: No sound

A: Check whether the speaker wires are connected appropriately. The positive (+) terminal of the speaker should be connected to the positive terminal of any other component, including the battery. And connect the amplifier control wire(REM) from your car to the amplifier control wire(AMP wire) of the unit.

Troubleshooting

Q: GPS no signal/poor signal.

A: Check if the GPS antenna is connected to the unit properly. We recommend mounting the GPS antenna either on the dash or along the rear deck. As long as it has a clear path to the sky and is not too close to A-pillars or a 2-way antenna.

You should consider mounting the antenna on the exterior of your vehicle if:

You have a wired rear defroster.

You have metallic window tint.

You have a solar reflective window.

You have a windshield-mounted radio antenna.

Q: Touch screen not responding

A: 1. Remove the plastic touch screen protector sheet. Some protector sheets are too thick and prevent the touch screen from responding to your touch.

2. Calibrate the touch screen

3. Reset the unit.

Q: Radio reception is poor

A: 1. The car antenna is not extended. Please pull out the antenna all the way.

2. The antenna control wire is not connected or broken.

3. Check the radio region in the settings of your unit.

Q: How to change the language on the unit?

A: Settings --> System --> Languages & input --> Languages.

Q: How to change the Date and Time?

A: Settings --> System --> Data & time.

Q: How to change the display wallpaper?

A: Settings --> Display --> Wallpaper
