

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the back of a black, irregularly shaped electronic device housing and its internal board. The housing is on the left, and the board is on the right. Both are placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in centimeters (0 to 100) and millimeters (0 to 10).
EUT Housing and Board View 2	 A photograph showing the front of the black electronic device housing and its internal board. The housing is on the left, and the board is on the right. Both are placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in centimeters (0 to 100) and millimeters (0 to 10).

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The component is irregularly shaped with a central circular cutout. It is populated with various electronic components, including a large black integrated circuit (IC) in the center, several smaller ICs, resistors, and capacitors. Two red LEDs are visible on the left side. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the component's length being approximately 100 mm and its width around 40 mm.
Solder Board-Component View 2	 A photograph of the same green PCB component, labeled 'Solder Board-Component View 2', showing the reverse side. This view highlights the solder joints and the underside of the components. The central circular cutout and the overall shape are consistent with View 1. The component is placed on the same blue textured surface next to the same black ruler. The ruler indicates the component's dimensions are approximately 100 mm by 40 mm.
