

● Specification

Input voltage	DC5V
Working Frequency	2.4G
Radio communication range	30Meters
Battery capacity	2200MAH
Charging time	2.5hours
Waterproof level	IP67
Operating temperature	-20℃-65℃

● Product chart

1. Fully charge battery before use
2. Check the battery life before use
3. Check light if working correctly before use
4. Charge the battery every 6months if not in use
5. Check light regularly when use for long hours
6. Replacement light & additional light must be paired before use
7. Always consult your vehicle owner's manual on compatibility with trailer lighting

FCC Compliance Statement: This device complies with Part 15 of the FCC rules. Operation is subjected to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Wireless Trailer Light Kit

100% Cable free Solution

The device has been evaluated to meet general RF exposure requirement in portable exposure condition without restriction.

INSTRUCTION

Please read the instruction carefully and keep it properly.

When using the lights on the road, please be sure to connect the vehicle power supply. When running on battery, it applies only in cases of emergency.
