### WARRANTY

## STATEMENT

Thank you for purchasing the remote dog training collar PD 513, this product has been tested to meet your stringent quality standards, and also covered with warranty for 12 months from the date of its original purchase.

Please contact us with your order ID and problem or issue, we will respond within 24 hours.

This warranty is void if the defect is caused by accidental damage, misuse, abuse, neglect, improper repair or alteration by unauthorized persons, or a failure to follow operating instructions provided with the product including adding essential oils directly into the tank and base.

This warranty does not apply to normal wear and tear or commercial use. In no event shall liability exceed the purchase price paid by the purchaser of the product. Under no circumstances shall there be liability for any loss—direct, indirect or incidental—or consequential damage arising out of, or in connection with the use of the product.

## SAFETY INSTRUCTION

Training collars are used to train the dogs and not for punishment. Use properly with care and the collar can be a safe and effective tool to train. Building communication and strengthen your bond with your best friend. Obey all safety messages that follow this instruction to avoid possible injury.

If your dog has heart disease, high blood pressure, cerebral thrombosis, skin allergies, etc., please do not use it.

## REINFORCE LEARNING BEHAVIOURS

If your dog knows the command but responds inconsistently with your requirement, a training collar can sharpen his skill.

For example, you have taught your dog to come when calling, but over time he responds slower. You can communicate with him via the remote transmitter, so that he responds to your call immediately.

1. Set the collar to initial stimulation level and test it.
2. Fit the collar on your dog's neck along with his regular collar.
3. Let him roam around the training area. Then give the command and press the stimulation button simultaneously.
4. If your dog move towards you, stop stimulation and praise him.

## Tips

1. If he doesn't get it for the first few times, don't give up and don't increase the stimulation. Try to work on this a few times.
2. During the training period never give the command if you are not able to enforce it. Your dog has to make the mental connection between the static shock/vibration/ tone to his behavior (may take a week or more for some dogs).

Altogether, both methods of stopping unwanted behaviors and reinforcing learning behaviors can be applied to nearly every training scenario.

## BEFORE USING THE DOG TRAINING COLLAR

1. Do not expose to extreme heat or store at the temperatures above 113°F or 45°C.
2. Please always keep the dog training collar out of reach of children.
3. Charge the remote transmitter and receiver at least 2 hours when you receive them. The collar can't receive any signals while it is being charged.

## WHEN USING THE DOG TRAINING COLLAR

1. Avoid leaving the collar on the dog for more than 12 hours per day.
2. If possible, please reposition the collar on the dog's neck every 1 to 2 hours.

## PACKAGE CONTENTS

### PD 513-1 (For 1 dog)

- |                                    |                          |

## INTRODUCTION FOR THE BUTTONS

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ③ The adjustment knob: Choose one of the function button, press and rotate the adjustable knob to toggle between sound, vibration and electric shock modes, once chosen, you can adjust:
  - Sound: Levels 1-9
  - Vibration: Levels 1-16
  - Electric Shock: Levels 1-99Note: Simply rotating the knob without pressing it first will not adjust the setting.

### ④ Indicator & Shock Lock Button:

Press and hold for 3 seconds to activate the receiver's flashing indicator. Press and hold for another 3 seconds to turn it off. In shock mode, press briefly (approx. 0.5 seconds) to lock or unlock the shock function.

### ⑤ Sound Button: The voice command execution key

### ⑥ Vibration Button: Vibration command execution key

### ⑦ Multi-Function Button:

When shock is locked: Press briefly to activate sound and vibration simultaneously.  
When shock is unlocked: Press briefly to activate the shock function.

### ⑧ Wrist Strap Perforation:

The wrist strap can be threaded at this position for convenient carrying.

### ⑨ Charging Port of the Remote Transmitter

### ⑩ Contact Points: Choose a suitable length to fit for different thickness of dog's hair.

### ⑪ Power Button of the Receiver

### ⑫ Flash Lamp

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## OPERATION AND CHARGING

- ① Power on/off Button: Turn on and off the remote control
- ② Channel Button: You can switch between Channel 1- Channel 2- Channel 3, as well as Channel 3- Channel 2- Channel 1, and control 1-3 dogs.

## How to choose USB charger

Please choose the USB charger with the parameters below (we can charge the device by the charger of smart phone or laptop/computer USB interface, before that please check if the charger is with the following parameters):  
Input: 100-240V ~ 50-60Hz  
Output: 5V 1000mA (or 300mA / 500mA)

## Charge the remote transmitter

1. Connect the charger cable to the charging port.
2. Plug the charger into a standard socket.
3. During charging, the battery icon flashes, when fully charged, it stays solid.

## Charge the receiver

1. Remove the charging port cover, connect the receiver to a charger into a standard socket.

## Turn the receiver on and off

1. Turn On: Press the power button once, the receiver will make a short "beep" sound, means that the receiver is turned on.
2. Turn Off: Press the power button once, and the receiver will emit a long "beep".

## Check the receiver power

When the receiver is turned on, the black screen displays the battery level symbol:  
The battery label shows 4 grids, representing 100%(75-100%)  
The battery label shows 3 grids, representing 75%(50-75%)  
The battery label shows 2 grids, representing 50%(25-50%)  
The battery label shows 1 grid, representing 25%(1-25%)

## How to choose USB charger

Please choose the USB charger with the parameters below (we can charge the device by the charger of smart phone or laptop/computer USB interface, before that please check if the charger is with the following parameters):  
Input: 100-240V ~ 50-60Hz  
Output: 5V 1000mA (or 300mA / 500mA)

## Charge the remote transmitter

1. Connect the charger cable to the charging port.
2. Plug the charger into a standard socket.
3. During charging, the battery icon flashes, when fully charged, it stays solid.

## Charge the receiver

1. Remove the charging port cover, connect the receiver to a charger into a standard socket.

## Turn the receiver on and off

1. Turn On: Press the power button once, the receiver will make a short "beep" sound, means that the receiver is turned on.
2. Turn Off: Press the power button once, and the receiver will emit a long "beep".

## Check the receiver power

When the receiver is turned on, the black screen displays the battery level symbol:  
The battery label shows 4 grids, representing 100%(75-100%)  
The battery label shows 3 grids, representing 75%(50-75%)  
The battery label shows 2 grids, representing 50%(25-50%)  
The battery label shows 1 grid, representing 25%(1-25%)

## How to choose USB charger

Please choose the USB charger with the parameters below (we can charge the device by the charger of smart phone or laptop/computer USB interface, before that please check if the charger is with the following parameters):  
Input: 100-240V ~ 50-60Hz  
Output: 5V 1000mA (or 300mA / 500mA)

## Charge the remote transmitter

1. Connect the charger cable to the charging port.
2. Plug the charger into a standard socket.
3. During charging, the battery icon flashes, when fully charged, it stays solid.

## Charge the receiver

1. Remove the charging port cover, connect the receiver to a charger into a standard socket.

## Turn the receiver on and off

1. Turn On: Press the power button once, the receiver will make a short "beep" sound, means that the receiver is turned on.
2. Turn Off: Press the power button once, and the receiver will emit a long "beep".

## Check the receiver power

When the receiver is turned on, the black screen displays the battery level symbol:  
The battery label shows 4 grids, representing 100%(75-100%)  
The battery label shows 3 grids, representing 75%(50-75%)  
The battery label shows 2 grids, representing 50%(25-50%)  
The battery label shows 1 grid, representing 25%(1-25%)

## How to choose USB charger

Please choose the USB charger with the parameters below (we can charge the device by the charger of smart phone or laptop/computer USB interface, before that please check if the charger is with the following parameters):
