BH-T10

User Manual

Thanks for using our wireless electronic products. For a good user experience, please read the manual carefully before using the products. Notice: To avoid unnecessary troubles, please do not disassemble these products by yourself, and please use the standard charger to charge.

Product overview

1 Choose the ear cap that suits you.

Make sure that the ear caps face down and put the earbuds into the ear in the angle shown as the picture on the right. 2

After putting on the earbuds, gently rotating the earbuds to a comfortable and secure position shown as picture 3 on the right. Now the earbuds are put on correctly! 3

Error
demonstration

Do not wear the earbuds like the way shown as the picture on the right 4

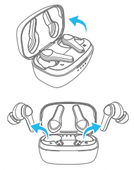

First time using

1.Tear off the insulating film.

2.Put the earbuds into the charging case and close the lid to charge(the earbuds are in charging state).

3. Open the lid of the case, and they will automatically turn on and pair with each other, then ready for pairing to the phone (both turn red and blue alternately) .

When there is no sound or the earbuds do not turn on, please put them back into the case and close it. Please make sure that they are charging with light on before opening the case again. Then take them out to use (both flash red and blue alternately) .

4.Turn on the Bluetooth function on your phone and search for【BH-T10】and connect it.

Warm notice:
△When there is no sound or the earbuds do not pair to the phone, please press both earbuds' power switch three times to start TWS pairing, both flash blue quickly and turn to red and blue alternately when connected.
PS: Not applicable when connected.

△ If you want to switch the Bluetooth connection to another device, please disable the Bluetooth function in the previously connected device OR delete the pairing name of "BH-T10" from the original device. Then the pairing name of "BH-T10" can be searched in new device and connected successfully.

ANC (ON)/ Transparency (ON) : Music Playing Time	About 7 hours
ANC (OFF)/ Transparency (OFF) : Music Playing Time	About 10 hours
Talk time	About 5 hours
Earbud battery capacity	40mAh
Fully charged time	About 1.2 hour
Charging case battery capacity	400mAh
Charging time of charging case	About 1.5 hour
Weight (single earbud)	4.8 g

Note: Please put both earbuds in the charging case to fully charge them on first use.

Charging The Case
Please use a charger with an output voltage of DC5V/1A to charge the charging case. You can also use a computer USB or other USB interface charger to charge (please DO remember choose the charger authorized by formal manufacturer) .

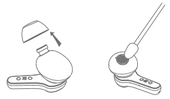

Signal transmission distance shown as below:

Notice:
△ When the charging case is out of power, it may cause the earbuds fail to shut down and remain connected to the phone even when they are placed in the charging case. So please remember to charge the charging case in time.

△ If moisture remains in the audio output hole, the sound may become fuzzy or completely inaudible. This is quite a normal case. In this case, please remove the earbuds and shake the audio output hole down several times to allow water to flow out or let it air dry for 1-2 hours, then the sound quality will become normal.

△ If there is noise, broken sound, or low sound, please take off the silicone ear cap and wipe it with a cotton swab.

△ If the earbud is not charging properly, please wipe the charging column with a cotton swab, and then charge it again.

Attentions

If there is water droplet on the surface, please wipe it with a dry cloth before putting them back into the charging case to avoid damaging the device.

Tip:
1. If the product is dirty, please do not rinse it directly with water or use boiling water to soak and disinfect it. It is recommended to wipe the earbuds with an alcohol cloth or a wet tissue.
2.If the product falls into the water accidentally, please pick it up in time and let it dry by natural wind under the sunshine for two hours before using it (otherwise it will affect the sound quality,thus fails to give you better experience) .

1.Do not use corrosive liquid to clean this product.
2.When it is stained with any chemicals, please rub it with a damp cloth wet with clean water.
3.Do not use this product under extreme circumstances for temperature below -10 degree Celsius or above 60 degree Celsius .
4.To avoid explosion, please do not throw this product into fire.
5.To avoid scratches, please do not touch the earbuds with sharp objects.
6.Do not insert objects into the earbuds, otherwise it would cause damage to the internal components.
7.Do not disassemble the earbud.
8. Please keep regular charge to earbuds, don't leave them become empty battery status to keep their lifetime.
9. Please do not charge this product with power adapter over 2A current. Excessive current may cause damage to battery.

Battery Warning !
There is a built-in lithium battery in this product. To avoid explosion, do NOT expose the product to intense sunlight, fire or throw it into fire.

FCC Caution

This device complies with part 15 of the FCC Rules. Operation is subject to the
following two conditions: (1) This device may not cause harmful interference, and (2)
this device must accept any interference received, including interference that may
cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for
compliance could void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class
B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to
provide reasonable protection against harmful interference in a residential installation.
This equipment generates uses and can radiate radio frequency energy and, if not
installed and used in accordance with the instructions, may cause harmful interference
to radio communications. However, there is no guarantee that interference will not
occur in a particular installation. If this equipment does cause harmful interference to
radio or television reception, which can be determined by turning the equipment off
and on, the user is encouraged to try to correct the interference by one or more of the
following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the
receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement. The device
can be used in portable exposure condition without restriction.
