Product overview

First time using

1. Turn on the speaker

ON

Hold 3s

2. Turn on the Bluetooth function of your phone, click **M1** to pair

Note:

1. After powering on, it will turn off if there is no pairing within 5 minutes. When the battery is low, the red light will flash.
2. If Apple users feel that the volume is low, you can turn off the corresponding setting on your phone (Settings - Sound and Haptics- Headphone Safety - Reduce Loud Sound).
3. When the power is less than 10%, the volume will automatically drop to the appropriate level, and it can be restored after charging.

In the power on state, quickly 5 click the power key of either product to pair

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
