How to use

1. scan the QR code below and select proper system(iOS/android) to download app

 芯动智家(X Smart Home)

App Store (IOS)	>
Google Play (Android)	>
国内安卓	>
国内安卓 (备用)	>

2. Register and log in : you can register an account with email address or you can log in by guest account. Guest account is able to use all functions of the app, but device will delete all guest info after device is reset.

3. click “+” button on upper right corner, follow app instructions to add device and combine with your cellphone.

4. Binding device : this Doorbell does not support 5G Wi-Fi channel ! Be sure to select the 2.4G Wi-Fi channel and start binding device.

5G Wi-Fi of dual channel router usually has “-5g” mark after the name. Remember NOT to select this Wi-Fi for device binding.

For example:

“NAXCLOW_2.4G” Correct channel

“NAXCLOW_5G” Wrong channel

if you have modified the wifi channel name, make sure you choose the correct channel for binding.

if you are not sure about the wifi channel, you can login your router backstage for more info. (sticker on the back of router housing)

(type router ip address in webbrowser, open the link and input user name and password.)

5. Working logic of doorbell push: press the doorbell after binding, the app will receive the message push, select "reject" or hang up after answering, the doorbell will enter the shutdown state, which can trigger the doorbell to send messages to the mobile phone again.

If we don't do any processing on the messages, we will only push one message to the mobile phone within 30 seconds to avoid the excessive interference of junk messages caused by others' malicious doorbell ringing. New messages will not be pushed to you until the device is shut down after 30 seconds and the doorbell is triggered again.

Warnings :

- please turn on Bluetooth, Wi Fi and allow all permissions of the app
- please use this product in an environment with good Wi Fi signal and try not to stick it on the metal door.
- this product does not support 5g Wifi
- before installing the doorbell, please conduct normal function test at the position to be installed to ensure that the product works properly. Remove the lens protective film after installation.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
