

Letter of Declaration on Indoor Access Point (6ID) Operation

Date: 2025-12-05

Federal Communications Commission
Authorization and Evaluation Division

We, Tozed Kangwei Tech Co., Ltd, attest that this device under FCC ID: 2A5LO-VL7M19K complies with device protocol requirements and operational restrictions: for Indoor Access Point 6ID:.

Protocol attestation statement:

FCC ID: 2A5LO-VL7M19K

To Whom It May Concern:

Indoor Access Point 6ID:

We, Tozed Kangwei Tech Co., Ltd, complies with the following requirements of Part 15E of the FCC' rules for the 5.925~7.125 GHz band:

1. Protocol attestation statement:

An 11ax/be IEEE AP's Transmit Power Envelope element has information fields for power limits for connecting client/subordinate devices. The TPE information is embedded in this device's signals and used to tell the connecting clients/subordinate that the max TX powers it is allowed to transmit. There is a regulatory info field in this device's beacon and probe response frames which detail this device type when the client/subordinate associates to this device.

2. Statement acknowledging device restrictions:

- a. Low-power indoor Access Point. Access Point operating in the 5.925-7.125 GHz band shall be supplied power from a wired connection, has an integrated antenna, is not battery-powered, and does not have a weatherized enclosure.
- b. This device's operation will not be allowed on oil platforms, cars, trains, boats, and aircraft, except that operation of this device is permitted in large aircraft while flying above 10,000 feet.
- c. Indoor access points are prohibited for control of or communications with unmanned aircraft systems, including drones.
