Pin

Screw for perch*2

Charging cable

Screw for bracket *4

SPECIFICATIONS FOR BIRD FEEDER

Product Model	BF23B
Charging	Solar panel and Type-C cable
Battery	5200 mAh Rechargeable Lithium-Ion Battery
Resolution	2.0MegaPixels Photos and 2K HD Live Stream Video
Operating Temperature	-5°F to 120°F (-20.5°C to 48.5°C)
Wireless Type	WiFi 2.4GHz
Field of View	180°
Dimension	L7.64 x W8.46 x H12.40 inches (19.4 x 21.5 x 31.5 cm)
Power Supply	DC 5V2A
Power Consumption	2W(Max.)
Battery Life	4-6 years
Night Visual Range	8m(Max)
Anti-flicker	50HZ /60HZ

SOLAR PANEL SPECIFICATION

IPCE	19%
Working Voltage (Vmp)	5V±5%
Working Current (Imp)	400mA±5%
Open Circuit Voltage (VOC)	7.2V±5%
Short-Circuit Current (ISC)	480mA±5%

INTRODUCTION FOR BIRD FEEDER

INTRODUCTION FOR CAMERA

① Lights

② PIR

③ Microphone

④ Camera

⑤ Light sensor

⑥ Indicator light

⑦ Magnet

⑧ Speaker

⑨ Charging port

⑩ Power ON/OFF

⑪ Sync/Reset

⑫ TF card slot (Capacity expansion 128G)

INDICATOR LIGHT

- 1.Camera turn on: Red light always ON.
- 2.Pairing mode: Red light fast blinking.
- 3.Network connecting: Green light fast blinking.
- 4.Network connected: Green light always ON.
- 5.Abnormal status : Red light slow blinking.(Need to reset)
- 6.During firmware update: Yellow light always ON.
- 7.Charging status: White light always ON during charging and OFF after fully charged.

FAQ

Q: Do I need to create an account to use the App?

A: Yes, you need to use email address or phone number to get a verification code for registering an account .

Q: What operating systems are the App compatible with?

A: The App is compatible with Apple iOS and Android system.

- IOS 10.0 and above.
- Android V5.0 and above.

Q:What Wifi band does the AI Camera support?

A: 2.4Ghz WiFi only.

Q: How many accounts can be linked with one Smart Bird Feeder?

A: The Smart Bird Feeder can only be linked to one account at a time. If it is linked by other accounts, please Long press the reset button for 10s to release.

Q: Can I share the Smart Bird Feeder with other users?

A: Yes. You are able to share the Smart Bird Feeder with other users however they will need to install the “Bird Lover” app.

When the App is ready, any of the following methods is optional to share the device:

- When they have individual account:
 1. Sharing the device by adding the their account names.
 2. Adding new accounts to your family group.
- When they have no individual account:

Using your main account and password to log in the same way as you do.

Q: What's the language of the App?

A: The App's language will match your device's system language. But the Language of AI recognition result only supports English or Chinese now.

Q: Why is the camera battery draining so fast?

It is low power consumption camera. Plus the solar panel power in charge, it can maintains the daily energy consume in sunny day. If the battery drains too fast you should check:

1. Whether you check the camera with APP too often.
2. Whether the camera always wakes up due to too many birds visiting.
3. Do the Wi-Fi performance is good or not? Once the camera lost Wi-Fi or Wi-Fi is too weak, the camera will scouring the Wi-Fi signal again and again, till the power used up.

Q: Why the "Playback" is not available?

A: Check the following:

1. Please confirm that the TF card is installed correctly or the payment action of cloud storage has been completed. If the TF card cannot be read, please format it to FAT32 with computer. Our product support 4G-128G TF card.
2. Please make sure you have enabled recording in the "Recording Settings" And turn on the detection mode.

Q: How to turn on or turn off the message notify?

A: 1. Enter the main page and find "Me" on the left bottom, click icon "👤". And set the app notification to turn on or off "Enable Notifications". You can also set up a schedule for "Do-Not Disturb Schedule" at the same interface.

2. Turn on or off the "Motion Detection" at the UI interface.
3. Turn on or off the "Detection Alarm Settings" on the Setting interface.

Q: Why the recognition result is wrong?

A: The accuracy rate depends on the angle and clarity of the bird image.

To get more accurate result, please ensure the picture is clear enough.

The identify features (bird's head, tail wings and pattern of feathers) should not be obscured. The bird image should be shown in the main position of the picture.

Retry to capture more clear bird photos in the movement to recognize the bird if the result is not satisfied.

If there are two or more bird species in one picture, the recognized result will focus on the main position.

Demonstration: The best angle for recognition

Q: What should I do if the device is not working properly?

1. Please check whether the power cable is correct plugged in and make sure the power switch is turned on.
2. Please check whether the WI-FI is available and the smart bird feeder is work at the range of WI-FI.
3. Please remove the device and reconnect it.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference,
and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected .

-Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter. "To comply with FCC RF exposure compliance requirements, this grant is applicable to

only Mobile Configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter ."
