| <div>AGES 8+</div> <div>(GPS)</div> <div>FOLDING AERIAL PHOTOGRAPHY AIRCRAFT</div> <div></div> <div>— PORTABLE • FOLDABLE —</div> <div><div><div>• To ensure the electromagnetic environment requirements of aviation radio stations, it is prohibited to operate within a range of 10 kilometers on both sides of the airport runway centerline and 20 kilometers on both ends of the runway, as well as civil aviation routes and flight paths.</div><div>• Stop using all types of drones in the no fly zones issued by relevant national departments.</div><div>• It is strictly prohibited to use drones in urban areas and densely populated areas.</div><div>• After receiving the drone, the battery must be fully charged before use.</div></div></div> | <div><div>PREFACE</div><div><p>Welcome to purchase this product. In order to make it easier and more convenient for you to use this aircraft, please read this manual carefully before you operate it. At the same time, please keep this manual properly as a reference for future adjustment and maintenance.</p><div>IMPORTANT STATEMENT</div><div><p>1. This product is not a toy, but a precision equipment that integrates professional knowledge such as mechanics, electronics, aerodynamics, and high-frequency emission. It needs to be assembled and debugged correctly to avoid accidents. The holder of the product must operate and control it in a safe manner. Improper operation may cause serious personal injury or property damage.</p><p>2. This product is suitable for people who have experience operating model aircraft and are not less than 14 years old.</p><p>3. In case of design, operation, maintenance and other issues, Please contact the local distributor or relevant personnel of our company.</p></div><div>SAFETY PRECAUTIONS</div><div><p>When flying a remote-controlled model aircraft, be sure to stay away from crowds, improper assembly or damage to the aircraft, poor electronic control, and unfamiliarity with operation can all lead to unpredictable accidents such as aircraft damage or personal injury. Operators must pay attention to flight safety and be aware of any other responsibilities caused by their own negligence.</p><p>1. Stay away from obstacles and crowds</p><p>Remote controlled aircraft have uncertain flight speed and status during flight, which poses potential risks. During flight, it is necessary to stay away from crowds, high-rise buildings, high-voltage power lines, etc., and avoid flying in adverse weather conditions such as wind, rain, lightning, etc., to ensure the safety of pilots/surrounding people and property.</p><p>2. Stay away from humid environments</p><p>The interior of an aircraft is composed of many precision electronic components and mechanical parts, so it is necessary to prevent moisture or water vapor from entering the body of the aircraft to avoid accidents caused by mechanical and electronic component failures.</p><p>3. Proper use of this product</p><p>Please use original factory parts for modification or repair to ensure flight safety. Please operate , and use within the scope allowed by the product's functionality, and do not use it for any other illegal purposes outside of safety regulations.</p><p>4. Avoid operating alone</p><p>The operation skills of remote-controlled aircraft have certain difficulties in the early stages of learning, and it is necessary to avoid flying alone as much as possible. Experienced personnel are needed for guidance.</p><p>5. Safe operation</p><p>Please operate the remote-controlled aircraft based on your own condition and flying skills. Fatigue, poor mental state, or improper operation will increase the probability of unexpected risks.</p><p>6. Stay away from high-speed rotating parts</p><p>When the aircraft rotor is rotating at high speed, please keep the pilot, surrounding people, and objects away from the rotating parts to avoid danger and damage.</p><p>7. Stay away from heat sources</p><p>Remote controlled aircraft are composed of materials such as metal, fiber, plastic, electronic components, etc. Therefore, they should be kept as far away from heat sources as possible, protected from sunlight, and avoid deformation or even damage caused by high temperatures.</p></div></div></div> | <div><div>WARNING</div><div><p>1. The packaging and instructions contain important information and should be retained.</p><p>2. You are responsible for ensuring that this aircraft will not cause harm to others' personal or property.</p><p>3. When debugging and installing the aircraft, it is necessary to strictly follow the operating instructions, and pay attention to maintaining a distance of 1-2 meters from the user or other people during flight to avoid hitting people's heads, faces, and bodies during flight or landing, which may cause injury.</p><p>4. Our company and the seller are responsible for any loss, damage, or bodily injury caused by improper use or operation! Not taking any responsibility.</p><p>5. Children should be guided by adults when operating aircraft, and this product is prohibited for children under 14 years old.</p><p>6. Please follow the instructions or packaging instructions for correct installation and use, and some parts should be assembled by adults.</p><p>7. The product contains small parts. Please keep them out of reach of children to prevent the risk of accidental ingestion.</p><p>8. It is strictly prohibited to play on the road or in areas with accumulated water to avoid accidents.</p><p>9. Please promptly put away the packaging materials to avoid causing harm to children.</p><p>10. Do not disassemble or modify the aircraft as it may cause malfunctions.</p><p>11. The charger battery box battery needs to be inserted into the designated power source that matches the product logo.</p><p>12. The remote control uses a 3.7V built-in lithium battery, which does not require replacement.</p><p>13. Only use chargers that are originally configured by the factory</p><p>14. Chargers are not toys.</p><p>15. When charging a rechargeable battery, it must be done under the supervision of an adult.</p><p>During charging, it must be kept away from flammable materials, and the guardian should not leave the model airplane outside the monitoring range.</p><p>16. Please do not short-circuit or squeeze the battery to avoid explosion.</p><p>17. Do not mix different types of lithium batteries.</p><p>18. The aircraft uses 7.4V smart lithium batteries, which need to be unplugged for charging.</p><p>19. Do not short-circuit, disassemble or put the battery into fire. Do not place the battery in high temperature or heated areas (such as fire or near electric heating devices).</p><p>20. Aircraft should be used as far away as possible from other electrical equipment and magnetic objects, as they may cause mutual interference.</p><p>21. Please maintain a safe distance from the high-speed rotating propeller to avoid the risk of twisting or cutting.</p><p>22. The motor is a heating component, please do not touch it to avoid burns.</p><p>23. Light emitting diode laser radiation, do not direct the beam directly.</p><p>24. Do not use the model near your ear! Mouse may lead to hearing loss.</p><p>25. USB 5V ≤ 2A.</p><p>26. In order to ensure the requirements for the magnetic environment of aviation radio stations, the use of model remote controllers should be stopped as required during the radio control period and within the region issued by relevant national departments.</p></div><div><div>— 2 —</div></div></div> | <div><div>REMOTE CONTROL FUNCTION</div><div><div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Speed adjustment</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Short press headless mode / Long press return</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Camera up adjustment</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Camera down adjustment</div></div></div></div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Power switch</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>GPS switch</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Control lever</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>One click takeoff / landing</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Return/Sel</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Function key</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Screen switch</div></div></div></div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Indicator Light</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Direction control lever</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Up key</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Down arrow key</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Confirm button</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Charging on / off</div></div></div></div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Before using the remote control, a memory card needs to be inserted in order to take photos/videos.</div></div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Mobile phone adapter 5V=0.8A (Not included)</div></div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div></div><div>Green light indicating charging.
