Technical drawing of the keyboard showing three views: top, side, and bottom. Dimensions are provided for each view:

- Top View:** Width is 380mm, Height is 130mm.
- Side View:** Height is 37mm.
- Bottom View:** Width is 380mm, Height is 130mm. A label points to the "2.4G dongle plug inside".

- Keyboard type: 98% layout
- Connection: wired + 2.4G + BT
- Cable length: 1.8m
- Operation distance: <10 meters (Wireless mode)
- Keycap: PBT Double Shot and Dye-sublimation
- Switch: Hot-swap switch
- Key conflict: N-Key rollover
- Backlight: RGB
- Battery: 4000mAh
- Charging time: approx. 7.5 hours
- Weight: 1110±10g
- Dimension: 388*139*57mm
- Compatibility: Win 7/Win 8/Win 10/Mac OS/Android and so on

3 height adjustable keyboard feet.

Diagram illustrating the keyboard layout and function keys. The keyboard features a standard QWERTY layout with additional function keys. The function keys are highlighted in red in the original image.

Below the keyboard, two circular icons represent the power display and indicator light.

Power display: The icon shows the **Fn** and **BS** keys. The text indicates: **Power display: Fn + BS (Seconds) = Display On/Off**. (Under the charging state, indicator cycle runs.)

Indicator light: The icon shows the **1** and **A** keys. The legend indicates: **1: Number Lock**, **A: Caps Lock**, **2.4G/BT indicator**, and **Charging indicator**.

3 ways to connect:
A: Wired
B: 2.4G
BT: BT mode
*If in wireless mode, we can connect the cable to provide charging

: Plug and play. Switch button to this position, insert the dongle and use.

If it fails, pull out 2.4G dongle, then press Fn+Q for 5 seconds, the indicator light flashes quickly. Insert the dongle, and pair it for use.

A: Connect with the cable and use.

BT

BT: 1- Switch button to this position;
2- Turn on the device BT and search keyboard;
3- Pairing and connection.

*In BT mode, we can choose to connect three different devices at the same time.
Switching methods as following:

 = Default this BT channel, connect the first BT device.

 + Press this key combination to connect a second BT device.

 + Press this key combination to connect a third BT device

*In BT mode, if can't search the keyboard or want to connect to another devices, press Fn+Q for 5 seconds, the indicator light flashes quickly. Then pair it for use.

Switch backlight effects

Setting

How to set marco functions

1. Create a new macro;

② Click Record, then press the keys what you want;

③ Before recording, we can check the options if needed;

④ When finished, click **Stop Recording**:

③ Back to Keyboard Icon () click the key which we want to set marco (the legend will turn orange);

⑥ Select the Macro Definition option:

7) Select the Macro Definition which you want to use.

Ⓡ Save the setting

§ 15.19 Labelling requirements.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the problem by one of the following measures:

interference by one or more of the folk.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

* RF warning for Portable device:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
