The diagram shows a rectangular device with rounded corners and a multi-line border. A central rectangular area is outlined in red and contains the text "Label Location". Six screws, each marked with a plus sign, are positioned around the perimeter: two at the top corners, two at the bottom corners, and one on each of the left and right sides. Two vertical rectangular slots are located on the left and right sides, and a small circular feature is centered at the bottom.

Label Location
