

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**EUT Housing and Board
View 1****EUT Housing and Board
View 2**

EUT Housing and Board View 3	 A photograph showing the disassembled components of a device. On the left is the internal circuit board with various electronic components. In the center is the silver-colored metal housing with circular cutouts. On the right is the blue plastic back cover with five circular indentations. A black ruler with white markings is placed vertically and horizontally to provide scale. The background is a blue textured surface.
Solder Board-Component View 1	 A close-up photograph of a blue printed circuit board (PCB) component. The board is populated with various electronic components, including a large integrated circuit, resistors, and capacitors. A black ruler with white markings is placed vertically and horizontally to provide scale. The background is a blue textured surface.

Solder Board-Component View 2	 A photograph of a blue printed circuit board (PCB) component, identified as an ezcap CaCAP215-S-0, placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component features various electronic components, including a black circular antenna, a green connector, and several surface-mounted components. The ezcap logo and part number are visible on the board.
Antenna View	 A photograph of the same blue PCB component, showing the antenna view. A red rectangular box highlights the black circular antenna, and a red line points from the text "BT Antenna" in a white box to the antenna. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component features various electronic components, including a green connector, and several surface-mounted components. The ezcap logo and part number are visible on the board.
