Method for input type

- #### Method for input type

- 不同，以上方法皆可尝试
key or file + space key
ation key to be switch is a

2.4G connection / 2.4G接続 / 2.4G연결 / 2.4G接続

- ① 打开电池的盖和主接收器，然后装上电池的盖。
- Open the battery cover to remove the screws and then install the battery cover.

- 3 插入USB接口
Insert the computer USB interface

Product features / 产品特点

- It is easy to use among multiple devices, it can be freely switched among computer, mobile phone and tablet personal computer.

- Put the tablet computer and the smartphone into the fixed support for input and coordination.

Basic Parameters (基本参数) (基本パラメータ) (基本参数) (基本参数)

键盘基础参数

- 键盘防弹工作**
工作电压: 3.3V
无源键状态: 12mA

The underlying parameter of the keyboard

- The working current: 3mA

键盘触键工作电流:

- 工作电压: 35V
漏电流: 12 μ A

The working current for the keyboard ladder

- The working current: 3mA

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
