

1. Press, while the power is off, press the key "HOLD" to enter the mode of Bluetooth, the

Insights

	Answer: "None". (None of the three different models of the three devices are acoustically connected, long pipes $\Rightarrow$ if the distance between two is the phase difference and it is $\neq 0$)
Wave playing exercises	Case 1: The volume of the speaker is too low Case 2: The volume of the phone is too low Solution: Please increase the speaker and phone volume. Case 3: The difference distance between the speaker and the mobile phone is too far (more than 100 feet) Case 4: There are other electronic devices (speaker and the mobile phone) playing it as if the phone were playing stereo (stereo effect) between speaker and the mobile phone. Even phone volume is
