

3-IN-1 Charging Station User Manual

I. Product Description

1. 3 IN 1 charging design supports charging all iPhone series devices
2. the charger can be used as a mobile phone holder

iPhone charging area
iPhone Output: 10W

iWatch wireless charging area
iWatch Output: 2.5W

Type-C power supply port
Input: $\geq 5V/3A$

AirPods charging area
AirPods Output: 3W

iPhone indicator light
iWatch indicator light
AirPods indicator light

II. Specifications

Name	3 in 1 charging station
Material	Plastic+PC
Color	Black/ White/ Pink
Charging Port	Type-C
Input Current	5V-3A
Phone Output	10W
Watch Output	2.5W
Earbuds Output	3W
Adapter	≥ QC 3.0 18W
Size	165*141*15mm
Compatibility	All iPhone series, AirPods, iWatch
Product List	Charging station*1 QC3.0 adapter*1 TypeC cable*1 User manual*1
Lighting way	Power-on: the green light flashes three times and then goes out Stand-by: light off Charging: the icon attached corresponding devices lights green Fully charged: light off

III. Operation Steps

1. Firstly power on the device by our equipped QC 3.0 adapter and Type-C charging cable.
2. When charging iPhone, iWatch, and AirPods devices, insert the iPhone and AirPods into the Lightning head and place the iWatch on the wireless charging area. Please insert your phone or airpods perpendicular to the lighting head and do not pull it too hard. When the devices are charging, the corresponding indicator icon turns green. The indicator light turns off when the device is fully charged.

1. Adapter power supply and socket installation must comply with safety regulations.
2. Adapter voltage requirements: between 4.9-5.3V, do not use non-standard power supply.
3. Do not disassemble or break the product by yourself to avoid damage to the product.
4. Do not expose this product to rain or moisture or high temperature.
5. Optimum operating ambient temperature is -10 C ~35 C .
6. Please place the product away from flammable and explosive liquids, gases or explosives.
7. For safety concerns, this product should be kept away from children.
8. Do not place magnetic cards and metal objects in the charging area.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
