Multi-fun universal remoter function definition

Product name: Wear vibrator remote control 2.4Gmodule

Model NO.: MF-APEG-2

Company Name: DongGuan Multi Fun Electronic Technology Co., LTD

Company Address: Room 1115 , Building 1 , No. 433 , ZhenAn East Road ,ChangAn Town , DongGuan City ,GuangDong Province , PRC.

Contact person: Yangfuyou

E-mail: marketing@multi-fun.com

ONLY BATTERY can be used as the power source when using this module.

FCC Requirement

Note: This equipment has been tested and found to comply with the limits pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF exposure considerations

This modular complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

RF Exposure - This device is only authorized for use in a mobile application. At least 20 cm of separation distance between the module and the user's body must be maintained at all times.

A label must be affixed to the outside of final commercial product with the following statements:

This device contains FCC ID: 2A62U-MFAPEG-2

Consistent with §2.909(a), the following text must be included within the user's manual or operator instruction guide for the final commercial product

This modular complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This device is only authorized for use in a mobile application. At least 20 cm of separation distance between the module and the user's body must be maintained at all times.

The final host / module combination may also need to be evaluated against the FCC Part 15B criteria for unintentional radiators in order to be properly authorized for operation as a Part 15 digital device. The FCC Part 15 Statement shall be included in the user manual of final commercial product if applicable.

CAUTION: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.
