

atomi Smart®

Let's get started!

Smart WiFi
Quartz Heater

Quick Start Guide

Get the app

Download the atomi smart app from the App Store or Google Play.

Register

Follow the on-screen instructions and register an account.

Add your smart device

Press "Add Device" or the "+" sign and choose the smart device to install from the device list.

Plug in your smart device

And press "Continue" on the atomi smart app.

Select the right network

Enter your WiFi password and "Confirm".

Make sure you're connected to a 2.4GHz WiFi network (atomi Smart can't connect to 5GHz networks).

Connect to the network

Press "Go to Connect" and follow the instructions on the screen.

Connect your smart device

Select "atomi-smart-XXXX" on the network list to connect.

If you are not automatically directed to the WiFi list, go to SETTINGS on your smartphone and press WiFi.

Troubleshooting

Smart WiFi

Quartz Heater

I can't find the atomi.smart.XXXX network in my WiFi list.

Make sure your atomi smart device is plugged in and the WiFi light is blinking quickly. If not, unplug your atomi smart device and plug it back in to reboot.

My WiFi network doesn't appear in the atomi smart app.

Use your smartphone to confirm that you have at least two WiFi bars in the vicinity of your atomi smart device. If not, move your atomi smart device closer to your router. (The list will refresh every 10 seconds).

Cannot connect to my WiFi network.

Make sure that you have entered the correct WiFi password during the WiFi setup. Check if there are problems with your internet connection. If the WiFi signal is too weak, reset your WiFi router and try again.

For more troubleshooting tips go to [www.atomismart.com/helpHeater](https://atomismart.com/helpHeater)

My atomi smart device appears as "Unavailable" in the app.

Refresh the device list

My atomi smart app is frozen.

Force quit and re-launch the atomi smart app.

I just replaced my router.

To reset the WiFi without losing your atomi smart devices settings, hold down the power button and wait for the LED to change from amber to blinking white, then release. When the LED begins to alternate white and amber, follow steps 3-5 to associate your atomi smart device with your new network.

I'm still having trouble!

WiFi networks come in a lot of shapes and sizes with many quirks of their own. It doesn't mean your atomi smart device is malfunctioning. If problems persist, please try these steps, in this order:

1. Force quit and re-launch the atomi smart app. Check to see if this fixes the issue.
2. Unplug your atomi smart device and plug it back in. Check to see if this fixes the issue.
3. Unplug your router and plug it back in. Check to see if this fixes the issue.
4. Delete and reinstall the atomi smart app. Check to see if this fixes the issue

Warning:

This Equipment complies with FCC/ISED radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC/ISED radio frequency exposure limits, human proximity to the antenna shall not be less than 20cm during normal operation.

Cet équipement est conforme aux limites d'exposition aux radiations FCC/ISED établies pour un environnement non contrôlé. Afin d'éviter la possibilité de dépasser les limites d'exposition aux fréquences radio FCC/ISED, la proximité humaine avec l'antenne ne doit pas être inférieure à 20 cm pendant le fonctionnement normal.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential

installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1)This device may not cause interference. (2)This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- 1)L'appareil ne doit pas produire de brouillage;
- 2)L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

CAN ICES-003 (B)/NMB-003(B)

This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

Le présent produit est conforme aux spécifications techniques applicables d'Innovation, Sciences et Développement économique Canada.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Still can't connect Need assistance
