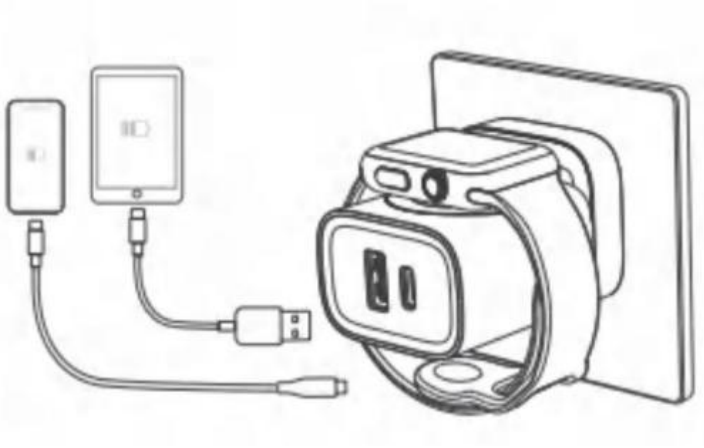
AC Wall Charger

Product Instruction Manual



Model:T002

Product features

Simultaneous Charging for Three Devices When use port charging for two diveices and wireless charging for Apple watch same time, the total output ofthe USB-A and USB-C ports is 15W, and the AppleWatch wireless charging is 5W.

Product specifications

Input: 100-240VAC, 50/60Hz, 0.6A Max.

Type-C1 Output: 5.0VDC, 3.0A 15.0W / 9.0VDC, 2.22A 20.0W / 12.0VDC, 1.67A 20.0W / 20.0VDC, 1.0A 20.0W

Type-A1 Output: 5.0VDC, 3.0A 15.0W / 9.0VDC, 2.A 18.0W / 12.0VDC, 1.5A 18.0W

Type-C1+Type-A1 Output:5V 3A Max.;

Wireless Charging：5W

Total Output: 25W(20.0W+5.0W） Max.

Instructions

1. Connect to power: Insert the wireless charging socket into a suitable power outlet and ensure a secure connection.
2. Place the device: Position the Apple Watch in the sensing area of the wireless charging socket, making sure the watch is aligned with the charger.
3. Start charging: After confirming that the watch is correctly placed, wait for a moment. The charging status will be displayed on the watch screen.
4. USB - C: If the device supports charging via the USB - C interface, insert one end of the corresponding USB - C charging cable into the USB - C interface of this wireless charging socket, and connect the other end to the device. This will enable charging for the device.
5. USB - A: When using a traditional USB - A interface device, insert the USB end of the USB - A charging cable into the USB - A interface of this wireless charging socket, and then connect the other end to the device to achieve the charging function.

Safety notice

a) Do not operate the appliance which has a damaged enclosure or plug.

b) Do not exceed the manufacturer's specification when in use.

c) This Travel Charger is not intended to be repaired by service personal in case of failure or component defect.

d) The main plug is used as disconnect device, the socket-outlet should be near the Travel Charger and it should be easily accessible.

e) The external flexible cable or cord of this transformer cannot be replaced; if the cord is damaged, the transformer shall be scrapped.

f) The appliance shall not be exposed to dripping or splashing water, No objects filled with liquids, such as vases, shall be placed on the appliance

g) Ambient temperature: 0-25℃ .

h) for indoor use only.

Environment friendly disposal

You can help protect the environment! Please remember to respect the local regulations: hand in the non-working electrical equipments to an appropriate waste disposal centre. The packaging material is recyclable. Dispose of the packaging in an environmentally friendly manner and make it available for the recyclable material collection-service.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.

• Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance co uld void the user's authority to operate the equipment.
