6.Safety-in order to ensure safely using the product, you must strictly abide by the following rules

The phone should be at least 15 cm away from any medical implant or rhythm adjuster and never put the device in your coat pocket.

Do not expose the device and other batteries together with the high temperatures or heat-generating equipment such as sunlight, heaters, microwave ovens, ovens or water heaters. Overheating of the battery can cause an explosion.

When charging is complete or not charging, disconnect the charger from the device and unplug the charger from the power outlet.

If the device is equipped with a non-removable battery, do not replace the battery yourself to avoid damaging the battery or device.

Use of an unapproved or incompatible power source, charger or battery may cause fire, explosion or other hazards.

Do not disassemble or reset the battery, insert other objects, immerse in water or other liquids to avoid battery leakage, overheating, fire or explosion.

Do not drop, crush, scratch or puncture the battery to avoid subjecting the battery to excessive external pressure, resulting in internal short-circuit and overheating of the battery.

The company does not bear the responsibility for accidents caused by non-standard related charging equipment.

7.Maintenance

Thoroughly understand the maintenance of this mobile phone to use the mobile phone more safely and effectively and extend the service life of the mobile phone as much as possible.

Please follow the instructions in the manual to open the phone, disassemble the accessories, and do not try other methods.

Please avoid falling, knocking or shaking your phone. Rough handling of the phone can cause the screen to rupture, damaging the internal circuit board and the delicate structure.

Do not use chemical solvents or detergents to clean your phone. Wipe the phone case with a soft cotton cloth dampened with water or a mild soap.

Clean the lens with a clean, dry, soft cloth and display.

If you encounter abnormal images such as crashes during use, the processing methods are as follows: Please press and hold the power button for more than 12 seconds, the phone will be forced to restart (unlock the phone when restarting), which can solve general bugs.

When the charger is not in use, please unplug it from the power outlet. Do not connect the battery that has been fully charged to the charger for a long time, as overcharging will shorten the battery life.
