IMPORTANT SAFETY INSTRUCTIONS

IMPORTANT SAFETY INSTRUCTIONS READ ALL INSTRUCTIONS BEFORE USING THIS APPLIANCE.

When using an electrical appliance, basic precautions should always be followed, including the following:

WARNING: Read all safety warnings and instructions. Failure to follow the warnings and instructions may result in electric shock, fire, or serious injury.

1. Do not allow to be used as a toy. Close attention is necessary when used by or near children.
2. Clear the area to be cleaned. Remove power cords and small objects from the floor that could entangle the Appliance. Tuck rug fringe under the rug base, and lift items such as curtains and tablecloths off the floor.
3. If there is a drop off in the cleaning area due to a step or stairs, you should operate the Appliance to ensure that it can detect the step without falling over the edge. It may become necessary to place a physical barrier at the edge to keep the unit from falling. Make sure the physical barrier is not a trip hazard.
4. Only use as described in this manual. Only use attachments recommended or sold by the

manufacturer.

5. Do not handle plug or appliance with wet hands.
6. Non-rechargeable batteries are prohibited.
7. Do not use without Dust Bin and/or Filters in place.
8. Do not operate the vacuum in an area where there are lit candles or fragile objects on the floor to be cleaned.
9. Do not use and store in extremely hot or cold environments (below -5°C /23°F or above 40°C/104°F). Please charge the robot in temperature above 0°C/32°F and below 40°C/104°F.
10. Keep hair, loose clothing, fingers, and all parts of body away from any openings and moving parts.
11. Do not operate the Appliance in a room where an infant or child is sleeping.
12. For INDOOR use ONLY. Do not use the Appliance in outdoor, commercial or industrial environments. Do not use Appliance on wet surfaces or surfaces with standing water.
13. Do not allow the Appliance to pick up large objects like stones, large pieces of paper, or any item that may clog the Appliance.
14. Do not use to pick up flammable or combustible materials such as gasoline, printer, or copier

- toner, or use in areas where they may be present.
15. Do not pick up anything that is burning or smoking, such as cigarettes, matches, hot ashes, or anything that could cause a fire.
 16. Do not put any object into openings. Do not use with any opening blocked; keep free of dust, lint, hair, and anything that may reduce air flow.
 17. Take care not to damage the power cord. Do not pull on or carry the Appliance or Docking Station by the power cord, use the power cord as a handle, close a door on the power cord, or pull power cord around sharp edges or corners. Do not run Appliance and Docking Station over the power cord. Keep power cord away from hot surfaces. Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
 18. If the power cord is damaged, it must be replaced by the manufacturer or its service agent in order to avoid a hazard.
 19. Do not use with a damaged power cord or plug. Do not use the Appliance or Docking Station if it is not working properly, has been dropped, damaged, left outdoors, or come in contact with water. It must be repaired by the manufacturer or its service agent in order to avoid a hazard.
 20. Turn OFF the power switch before cleaning or maintaining the Appliance. Turn off all controls before unplugging. Always turn off this appliance before connecting or disconnecting motorized nozzle.
 21. Turn OFF the Power Switch before removing the Dust Bin.
 22. Remove the Appliance from the Docking Station, and turn OFF the power switch to the Appliance before removing the battery for disposal of the Appliance.
 23. The battery must be removed and discarded according to local laws and regulations before disposal of the Appliance.
 24. Please dispose of used batteries according to local laws and regulations.
 25. Do not incinerate the Appliance even if it is severely damaged. The batteries can explode in a fire.
 26. When not using the Docking Station, unplug from outlet when not in use and before servicing.
 27. The Appliance must be used in accordance with the directions in this Instruction Manual. Ecovacs Home Service Robotics cannot be held liable or responsible for any damages or injuries caused by improper use.
 28. Prevent unintentional starting. Ensure the switch

- is in the off position before connecting to battery pack, picking up or carrying the appliance.
29. When battery pack is not in use, keep it away from other metal objects, like paper clips, coins, keys, nails, screws, or other small metal objects, that can make a connection from one terminal to another. Shorting the battery terminals together may cause burns or a fire.
 30. Under abusive conditions, liquid may be ejected from the battery; avoid contact. If contact accidentally occurs, flush with water. If liquid contacts eyes, additionally seek medical help. Liquid ejected from the battery may cause irritation or burns.
 31. Do not use a battery pack or appliance that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion, or risk of injury.
 32. Do not expose a battery pack or appliance to fire or excessive temperature. Exposure to fire or temperature above 130°C may cause explosion. The temperature of 130°C can be replaced by the temperature of 265°F.
 33. Follow all charging instructions and do not charge the battery pack or appliance outside of the temperature range specified in the instructions.
- Charging improperly or at temperatures outside of the specified range may damage the battery and increase the risk of fire.
34. Have servicing performed by a qualified repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.
 35. Do not modify or attempt to repair the appliance or the battery pack (as applicable) except as indicated in the instructions for use and care.
 36. Place the cords from other appliances out of the area to be cleaned.
 37. Do not operate the vacuum in a room that has lit candles on furniture that the vacuum may accidentally hit or bump into.
 38. Do not allow children to sit on the vacuum.
 39. Use only as described in this manual. Use only manufacturer's recommended attachments.
 40. Recharge only with the charger specified by the manufacturer. A charger that is suitable for one type of battery pack may create a risk of fire when used with another battery pack.
 41. Use appliances only with specifically designated battery packs. Use of any other battery packs may create a risk of injury and fire.
 42. The robot contains batteries that are only

- replaceable by skilled persons. To replace the robot's battery, please contact Customer Service.
43. If the robot will not be used for a long time, fully charge the robot and power OFF for storage and unplug the Docking Station.
 44. To Reduce The Risk Of Electric Shock – Do not use on wet surfaces. Do not expose to rain. Store indoors.
 45. To Reduce The Risk Of Injury From Moving Parts – Unplug Before Servicing.
 46. Risk Of Injury. Brush May Start Unexpectedly. Unplug Before Cleaning or Servicing.
 47. To reduce the risk of injury, user must read the Instruction Manual.
 48. To Reduce The Risk Of Electric Shock – Do not use outdoors or on wet surfaces.
 49. Please make sure your power supply voltage matches the power voltage marked on the Docking Station.
 50. Do not use the Docking Station if it is damaged.
 51. The plug must be removed from the receptacle before cleaning or maintaining the Docking Station.
 52. Power Switch: "I"=ON, "O"=OFF.
 53. Connect to a properly grounded outlet only. See Grounding Instructions.

	Direct current
	Alternating current

This Device Complies with DHHS Radiation Rules, 21CFR Chapter 1, Subchapter J.

Federal Communications Commission (FCC) Interference Statement

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device contains licence-exempt transmitter(s)/ receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

RF exposure warning

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be collocated or operating in conjunction with any other antenna or transmitter.

MPE caution (for mobile device under Part 15.247device)

To satisfy FCC & IC RF exposure requirements, a separation distance of 20 cm or more should be maintained between the antenna of this device and persons during device operation.

To ensure compliance, operations at closer than this distance is not recommended.

To disable the Wi-Fi module on DEEBOT, follow these steps: power on the robot, then place it on the OMNI Station, ensuring that the Charging Contacts on DEEBOT and the Station are properly connected, and press and hold the  for 30 s until you hear beeps.

To enable the Wi-Fi module on DEEBOT, please restart the robot. Additionally, unplug and plug in the Station.

SAVE THESE INSTRUCTIONS

GROUNDING INSTRUCTIONS

This appliance must be grounded. If it should malfunction or breakdown, grounding provides a path of least resistance for electric current to reduce the risk of electric shock. This appliance is equipped with a cord having an equipment-grounding conductor and grounding plug. The plug must be inserted into an appropriate outlet that is properly installed and grounded in accordance with all local codes and ordinances.

WARNING – Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or service person if you are in doubt as to whether the outlet is properly grounded. Do not modify the plug provided with the appliance – if it will not fit the outlet, have a proper outlet installed by a qualified electrician.

This appliance is for use on a nominal 120 V circuit and has a grounding attachment plug that looks like the plug illustrated as the following photo. Make sure that the appliance is connected to an outlet having the same configuration as the plug. No adaptor should be used with this appliance.

For INDOOR household use ONLY.

This device contains licence-exempt transmitter(s)/ receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

To satisfy FCC&IC RF exposure requirements, a separation distance of 20 cm or more should be maintained between the antenna of this device and persons during device operation.

To ensure compliance, operations at closer than this distance is not recommended.

Device Update

Typically, some devices are updated bi-monthly, but not always so specific.

Some devices, especially those that went on sale more than three years ago, will only be updated if a critical vulnerability is found and fixed.

PACKAGE CONTENTS

① Package Contents

Instruction Manual

Power Cord

ECOVACS DEEBOT
Cleaning Solution

Note:

* Figures in this manual are for reference only and may differ from the appliance. Product design and specifications are subject to changes without notice.

② Product Diagram

1. DEEBOT Front View

Button on DEEBOT:

Press: Toggle start/Pause

Press for 3 s: Return to the station

Double Tap: Release/Retract the mop
(DEEBOT not in the station)

2. DEEBOT Bottom View

Anti-drop Sensors

3. Inside DEEBOT (Under the Top Cover)

RESET Button

Network Setup: Press the RESET Button, and a voice prompt will be heard to connect DEEBOT to the App.

Restore default settings: Press and hold the RESET button for 5 seconds. After hearing the voice prompt, the startup music will play, and DEEBOT will be restored to its default settings. Once restored, current maps and cleaning settings will be deleted. Exercise caution when using this function.

4. Dust Bin

Dust Bin Cover

Filter

Filter Holder

Dust Disposal Port

Filter Latch

5. OMNI Station Front View

Dirty Water Tank

Clean Water Tank

Note:

- Do not remove DEEBOT while it's washing the mop in the station.
- If DEEBOT fails to charge, please wipe the charging contacts with a clean and dry cloth.

6. Dust Bag

Dust Bag Handle

7. OMNI Station Back View

8. Indicator Light on DEEBOT

Light Effect	State
Breathing White	Charging
Solid White	Fully Charged/Running
Solid Red	Low Battery
Flashing Red	DEEBOT Alarm
Flashing Orange	Station Alarm

Note:

- Flashing Orange / Red: Please check the ECOVACS HOME APP for the cause of the malfunction.

9. Sensors Overview

Name	Functional Description
Navigation Module	Laser Ranging is applied to measure the distance between DEEBOT and surrounding objects based on the time difference of reflection, allowing the module to map against the objects around while DEEBOT is moving. The detection range is 10 m.
Obstacle Avoidance Module	Infrared Ranging and similar triangles are applied to measure the distance between the surrounding objects and DEEBOT. When the sensor detects an object nearby, DEEBOT will automatically take a turn to avoid bumping into the object. The detection range is 0.3 m.
Anti-drop Sensors	Using the Time-of-Flight (dToF) principle, the dToF sensor located on DEEBOT's bottom continuously measures the distance between DEEBOT and the ground. Meanwhile, infrared sensors on the bottom detect the distance using infrared ranging technology. DEEBOT will not move forward when there are stairs in front (such as when the height of the white surface is 55 mm or more, or the height of the black surface is 30 mm or more) and the identified height exceeds the preset one, realizing the anti-drop feature.
Carpet Detection Sensor	The sensor emits 300 kHz ultrasound, whose energy will be absorbed by the carpet, causing the echoed energy to be lower than the threshold. DEEBOT thereby detects the carpet's presence. In the ECOVACS laboratory, more than 50 types of carpets available on the market are identified.
Anti-collision Sensor	With the principle of the Optocoupler Switch, DEEBOT will avoid obstacles when they are about to collide.
Edge Sensor	With Infrared Ranging, the edge sensor detects the distance between the DEEBOT and objects on the side. When there is a wall or obstacles on the right, the DEEBOT performs edge cleaning to avoid missing any spots and prevent collisions.
AIVI Camera	AI intelligent analysis enables environmental sensing and efficient video management.
Microphone	The microphone captures sound through diaphragm vibrations caused by the human voice traveling through the air. This enables voice recording and Voice Control to direct the DEEBOT to complete the assigned job through the acquisition and algorithms of sound models. The effective wake distance is 5 m.

INITIAL SETUP AND USE

1 Notes before Cleaning

Tidy up the Area to be Cleaned

For the maximum cleaning area possible, put furniture, such as tables, chairs, and pedestal fans, in their proper place and put away low-lying items, such as weight scales, before using DEEBOT.

Prevent DEEBOT from Falling

Place a physical barrier at the edge of a drop, such as staircases and steps, to stop DEEBOT from falling over the edge.

Open Doors and Help DEEBOT Explore

Open all room doors to help DEEBOT fully explore your house during the first use.

Remove objects, including cables, clothes, and slippers, from the floor to improve cleaning efficiency.

Before using the product on a carpet with tasseled edges, please fold the tassels under the carpet.

Please do not stand in narrow spaces, such as hallways, to avoid blocking the navigation module.

Ensure the clarity of the DEEBOT's vision and avoid scratching or smudging the AI/VI camera lens with fingerprints or oily stains. Use a clean, soft cloth to wipe the camera, instead of cleaning agents, detergents, or sprays.

Provide Sufficient Lighting

Ensure all cleaning areas are well-lit to support DEEBOT's AI/VI camera in accurately avoiding obstacles such as shoes, socks, and cords.

2 Quick Start

Remove all protective materials before using the appliance.

1. Station Installation

The sound of "click" indicates proper installation.

2. Assemble and Place the Station

Place the OMNI station against the wall on a flat, hard surface. Do not place items within 0.05 m on either side and 0.8 m in front.

Note:

- If there are reflective objects such as mirrors and reflective skirting lines near the station, the bottom 14 cm of such objects should be covered.
- Do not place the station under direct sunlight or in high-temperature environments..
- Place the station in a location with a strong Wi-Fi signal for a better user experience.
- A slight mechanical sound from the bottom of the station indicates the station is powered on.

3 Download ECOVACS HOME APP

To enjoy all available features, it is recommended that you control your DEEBOT via the ECOVACS HOME App.

Scan the QR code under the top cover to download the App.

Or search "ECOVACS HOME" on the App Store or Google Play to download the App.

Note: Follow the instructions on the App to complete the registration, login, and connection.

4 Connect DEEBOT with APP

Via Bluetooth: Turn on DEEBOT and your mobile phone Bluetooth. Allow the App to obtain mobile phone Bluetooth permission. Tap to scan the QR Code on DEEBOT or tap  or  in the App to find the nearby DEEBOT.

Via Wi-Fi: You can also choose to connect DEEBOT with the App through other methods according to the prompts on the App's page.

Note: Please connect via Bluetooth for a better experience.

Wi-Fi Network Requirements:

- You are using a 2.4GHz or 2.4/5 GHz mixed network.
- Your router supports 802.11b/g/n and IPv4 protocol.
- Do not use a VPN (Virtual Private Network) or Proxy Server.
- Do not use a hidden network.
- WPA and WPA2 using TKIP, PSK, AES/CCMP encryption.
- WEP EAP (Enterprise Authentication Protocol) is not supported.
- Use Wi-Fi channels 1-11 in North America and channels 1-13 outside North America (refer to local regulatory agency).
- If you are using a network extender/repeater, the network name (SSID) and password are the same as your primary network.
- Please enable the WPA2 on your router.

Wi-Fi Indicator Light

	Slow flashing white light	Disconnected from Wi-Fi
	Fast flashing white light	Connecting
	Steady white light	Connected to Wi-Fi

Please be aware that intelligent features such as remote startup, voice interaction, 2D/3D map display and control settings, and personalized cleaning (depending on the Appliance) require the ECOVACS HOME APP, which is constantly updated. You need to agree to our Privacy Policy and User Agreement so that we can process some of your essential and necessary information before you can use certain features of the ECOVACS HOME APP to control the Appliance. If you disagree with our Privacy Policy and User Agreement, such features will be unavailable. However, you can still use the basic features of this appliance for manual operation.

5 Power on and Charge DEEBOT

Move DEEBOT back to the station. The voice prompt "Start charging" and a breathing white light indicate a successful docking and charging in progress. DEEBOT then starts charging.

Note:

- DEEBOT cannot charge when it is powered off.
- After cleaning, it is recommended to keep DEEBOT powered on and charging to ensure it is ready for the next cleaning session.
- Please start cleaning from the station. Do not move the station while cleaning.

6 Fill the Clean Water Tank

Take out the clean water tank, open the tank cover, and fill the tank with water. Close the tank cover and reinstall the clean water tank.

Note:

- Do not add hot water, as it may cause deformation.
- The water inside the tank may appear as water stains due to the function test. It is safe to use.

7 Add Cleaning Solution

1. Take off the dust collection cabin cover, pull out the cleaning solution box, and place it on a level, hard surface.

2. Pour the cleaning solution into the box. After securing the box lid, push it back into the station.

Note:

- For a longer lifespan of the product, please use ECOVACS' official cleaning solution.
- Do not overfill with cleaning solution, as it may overflow when the lid is secured.
- If you do not use floor cleaning solution regularly, this step can be skipped and the auto cleaning solution adding function can be disabled.

3. Return the dust collection cabin cover and press the cover firmly to secure it in position.

8 Operate DEEBOT for Cleaning

1. Start Mapping

Before the first mapping, please help eliminate a few potential issues.

For example, DEEBOT may get stuck under furniture. Please refer to the following solutions:

- ① Raise the low-sitting furniture if possible;
- ② Cover the bottom of the furniture.

2. Start Cleaning

Please ensure that DEEBOT is in the station and is fully charged before cleaning for the first time. Tap  on DEEBOT to start. You can also use the ECOVACS HOME App or voice control to start.

For the first use, Please start vacuuming for 2-3 times before starting mopping for better cleaning performance.

The DEEBOT's water tank is automatically refilled through the station. Manual refilling is not needed.

When mopping, DEEBOT will recognize floor types and is able to lift mops automatically when encountering carpets. Please do not use DEEBOT on shaggy rugs or carpets with fibres longer than 10 mm. It is recommended to fold up the shaggy rugs with fibres longer than 10 mm during the cleaning process, or set the shaggy carpeted area as a no-entry zone by setting a virtual boundary in the ECOVACS HOME App.

3. Pause

Tap  on DEEBOT to pause it while it is working. You can also use the ECOVACS HOME APP or voice control to pause DEEBOT.

4. Wake Up

After pausing for a while, all indicator lights on DEEBOT will go out. To wake up DEEBOT, press . Alternatively, use the ECOVACS HOME App or voice control to resume DEEBOT's operation.

5. Back to Station

Use the ECOVACS HOME APP or voice control to recall DEEBOT, or press and hold the  button on DEEBOT for 3 s, to allow DEEBOT to dock for charging.

When PowerBoost Charging is enabled, DEEBOT will fast charge for about 5 minutes after returning to the station. It will then switch to standard charging and stop automatically once fully charged.

6. Deep Sleep Mode

DEEBOT will enter deep sleep mode if it stays outside the station for about 10 h to protect the battery. Please switch OFF and ON to wake DEEBOT up. If there is no response, place DEEBOT back to the station for charging.

REGULAR MAINTENANCE

① Maintenance Frequency

To keep DEEBOT running at peak performance, perform maintenance and replace parts at the following frequencies:

Part	Maintenance Frequency	Replacement
Washable Roller Mop	/	Every 1-2 months
Drip Tray	Every week	/
Dust Bag	/	When the App prompts
Side Brush	Every 2 weeks	Every 3-6 months
Main Brush	Every week	Every 6-12 months
Filter	Every week	Every 3-6 months
Universal Wheel Anti-drop Sensors Edge Sensor Bumper Charging Contacts on DEEBOT Charging Contacts on OMNI Station Navigation Module Obstacle Avoidance Module AIVI Camera	Approx. every month	/
Clean Water Tank	Every 3 months	/
Dirty Water Tank	Every month	/
Body and Bottom of the Station	Every month	/
Mop Washing Tray	Every 5 months	/
Cleaning Solution Unit	Every month	/

Note: Explore more accessories at the ECOVACS HOME APP or at <https://www.ecovacs.com>.

DEEBOT MAINTENANCE

① Maintain Dust Bin

Clean the Dust Bin

1. Remove the dust bin and then empty it.

2. Open the filter net and remove the filter.

3. Rinse the dust bin and filter with water, and shake off the water droplets.

Note:

- Please rinse the filter with water as shown.
- Do not use fingers or brushes to clean the filter.

4. Air-dry the dust bin and filter.

Note: Completely dry the components before use.

2 Maintain Main Brush and Side Brush

Clean the Main Brush

1. Remove the cover from the main brush.

2. Remove and clean the main brush.

3. Install the main brush and the cover.

Clean the Side Brush

Remove the side brush using a screwdriver and clean it.

Note: Explore more accessories at the ECOVACS HOME APP or at <https://www.ecovacs.com>.

3 Maintain Roller Mop

Clean the Roller Mop

1. Double tap  button to release roller mop component.

Note: Do not pull the roller forcefully while it is retracted, as this may damage the roller mop component.

2. Press the lateral unlock button to remove the roller and then detach the roller end cover.

3. Clean the roller end cover and the roller mop.

4. Lift the roller shaft and clean both the roller axle and the roller chamber.

Note: Do not wash DEEBOT with water.

5. Push the roller mop into the roller end cover and double tap the  button to retract.

4 Maintain Clean Drip Tray

Clean the Drip Tray

1. Remove the drip tray.

Note: A small amount of residual water may leak out when flipping DEEBOT if it's not in drying mode.

2. Clean drip tray.

3. Please install the drip tray filter components as shown in the illustration.

5 Maintain Other Components

Clean the Obstacle Avoidance Module

Clean the Bumper

Clean the Navigation Module

Clean the Edge Sensor

Clean Charging Contacts

Clean the Anti-drop Sensors

Note: Charging contacts contain sensitive electronic components. Clean them with a dry cloth. Do not use a wet cloth to prevent water damage.

Clean the Universal Wheel

Clean the Driving Wheels

STATION MAINTENANCE

① Maintain Dust Bag

1. Remove the dust collection cabin cover.

2. Remove the disposable dust bag in the direction of the arrow and discard it.

Note: Hold the handle to lift out the dust bag, which can effectively prevent dust leakage.
