Manual de instrucciones.....ES-LA | P61

IMPORTANT SAFETY INSTRUCTIONS

IMPORTANT SAFETY INSTRUCTIONS READ ALL INSTRUCTIONS BEFORE USING THIS APPLIANCE.

When using an electrical appliance, basic precautions should always be followed, including the following:

WARNING: Read all safety warnings and instructions. Failure to follow the warnings and instructions may result in electric shock, fire, or serious injury.

1. Do not allow to be used as a toy. Close attention is necessary when used by or near children.
2. Clear the area to be cleaned. Remove power cords and small objects from the floor that could entangle the Appliance. Tuck rug fringe under the rug base, and lift items such as curtains and tablecloths off the floor.
3. If there is a drop off in the cleaning area due to a step or stairs, you should operate the Appliance to ensure that it can detect the step without falling over the edge. It may become necessary to place a physical barrier at the edge to keep the unit from falling. Make sure the physical barrier is not a trip hazard.
4. Only use as described in this manual. Only use attachments recommended or sold by the

manufacturer.

5. Do not handle plug or appliance with wet hands.
6. Non-rechargeable batteries are prohibited.
7. Do not use without Dust Bin and/or Filters in place.
8. Do not operate the vacuum in an area where there are lit candles or fragile objects on the floor to be cleaned.
9. Do not use and store in extremely hot or cold environments (below -5°C /23°F or above 40°C/104°F). Please charge the robot in temperature above 0°C/32°F and below 40°C/104°F.
10. Keep hair, loose clothing, fingers, and all parts of body away from any openings and moving parts.
11. Do not operate the Appliance in a room where an infant or child is sleeping.
12. For INDOOR use ONLY. Do not use the Appliance in outdoor, commercial or industrial environments. Do not use Appliance on wet surfaces or surfaces with standing water.
13. Do not allow the Appliance to pick up large objects like stones, large pieces of paper, or any item that may clog the Appliance.
14. Do not use to pick up flammable or combustible materials such as gasoline, printer, or copier

- toner, or use in areas where they may be present.
15. Do not pick up anything that is burning or smoking, such as cigarettes, matches, hot ashes, or anything that could cause a fire.
 16. Do not put any object into openings. Do not use with any opening blocked; keep free of dust, lint, hair, and anything that may reduce air flow.
 17. Take care not to damage the power cord. Do not pull on or carry the Appliance or Docking Station by the power cord, use the power cord as a handle, close a door on the power cord, or pull power cord around sharp edges or corners. Do not run Appliance and Docking Station over the power cord. Keep power cord away from hot surfaces. Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
 18. If the power cord is damaged, it must be replaced by the manufacturer or its service agent in order to avoid a hazard.
 19. Do not use with a damaged power cord or plug. Do not use the Appliance or Docking Station if it is not working properly, has been dropped, damaged, left outdoors, or come in contact with water. It must be repaired by the manufacturer or its service agent in order to avoid a hazard.
 20. Turn OFF the power switch before cleaning or maintaining the Appliance. Turn off all controls before unplugging. Always turn off this appliance before connecting or disconnecting motorized nozzle.
 21. Turn OFF the Power Switch before removing the Dust Bin.
 22. Remove the Appliance from the Docking Station, and turn OFF the power switch to the Appliance before removing the battery for disposal of the Appliance.
 23. The battery must be removed and discarded according to local laws and regulations before disposal of the Appliance.
 24. Please dispose of used batteries according to local laws and regulations.
 25. Do not incinerate the Appliance even if it is severely damaged. The batteries can explode in a fire.
 26. When not using the Docking Station, unplug from outlet when not in use and before servicing.
 27. The Appliance must be used in accordance with the directions in this Instruction Manual. **Ecovacs Home Service Robotics** cannot be held liable or responsible for any damages or injuries caused by improper use.
 28. Prevent unintentional starting. Ensure the switch

- is in the off position before connecting to battery pack, picking up or carrying the appliance.
29. When battery pack is not in use, keep it away from other metal objects, like paper clips, coins, keys, nails, screws, or other small metal objects, that can make a connection from one terminal to another. Shorting the battery terminals together may cause burns or a fire.
 30. Under abusive conditions, liquid may be ejected from the battery; avoid contact. If contact accidentally occurs, flush with water. If liquid contacts eyes, additionally seek medical help. Liquid ejected from the battery may cause irritation or burns.
 31. Do not use a battery pack or appliance that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion, or risk of injury.
 32. Do not expose a battery pack or appliance to fire or excessive temperature. Exposure to fire or temperature above 130°C may cause explosion. The temperature of 130°C can be replaced by the temperature of 265°F.
 33. Follow all charging instructions and do not charge the battery pack or appliance outside of the temperature range specified in the instructions.
- Charging improperly or at temperatures outside of the specified range may damage the battery and increase the risk of fire.
34. Have servicing performed by a qualified repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.
 35. Do not modify or attempt to repair the appliance or the battery pack (as applicable) except as indicated in the instructions for use and care.
 36. Place the cords from other appliances out of the area to be cleaned.
 37. Do not operate the vacuum in a room that has lit candles on furniture that the vacuum may accidentally hit or bump into.
 38. Do not allow children to sit on the vacuum.
 39. Use only as described in this manual. Use only manufacturer's recommended attachments.
 40. Recharge only with the charger specified by the manufacturer. A charger that is suitable for one type of battery pack may create a risk of fire when used with another battery pack.
 41. Use appliances only with specifically designated battery packs. Use of any other battery packs may create a risk of injury and fire.
 42. The robot contains batteries that are only

- replaceable by skilled persons. To replace the robot's battery, please contact Customer Service.
43. If the robot will not be used for a long time, fully charge the robot and power OFF for storage and unplug the Docking Station.
 44. To Reduce The Risk Of Electric Shock – Do not use on wet surfaces. Do not expose to rain. Store indoors.
 45. To Reduce The Risk Of Injury From Moving Parts – Unplug Before Servicing.
 46. Risk Of Injury. Brush May Start Unexpectedly. Unplug Before Cleaning or Servicing.
 47. To reduce the risk of injury, user must read the Instruction Manual.
 48. To Reduce The Risk Of Electric Shock – Do not use outdoors or on wet surfaces.
 49. Please make sure your power supply voltage matches the power voltage marked on the Docking Station.
 50. Do not use the Docking Station if it is damaged.
 51. The plug must be removed from the receptacle before cleaning or maintaining the Docking Station.
 52. Power Switch: "I"=ON, "O"=OFF.
 53. Connect to a properly grounded outlet only. See Grounding Instructions.

	Direct current
	Alternating current

This Device Complies with DHHS Radiation Rules, 21CFR Chapter 1, Subchapter J.

Federal Communications Commission (FCC) Interference Statement

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device contains licence-exempt transmitter(s)/ receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

RF exposure warning

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be collocated or operating in conjunction with any other antenna or transmitter.

MPE caution (for mobile device under Part 15.247device)

To satisfy FCC & IC RF exposure requirements, a separation distance of 20 cm or more should be maintained between the antenna of this device and persons during device operation.

To ensure compliance, operations at closer than this distance is not recommended.

To disable the Wi-Fi module on DEEBOT, follow these steps: power on the robot, then place it on the OMNI Station, ensuring that the Charging Contacts on DEEBOT and the Station are properly connected, and press and hold the  for 30 s until you hear beeps.

To enable the Wi-Fi module on DEEBOT, please restart the robot. Additionally, unplug and plug in the Station.

SAVE THESE INSTRUCTIONS

GROUNDING INSTRUCTIONS

This appliance must be grounded. If it should malfunction or breakdown, grounding provides a path of least resistance for electric current to reduce the risk of electric shock. This appliance is equipped with a cord having an equipment-grounding conductor and grounding plug. The plug must be inserted into an appropriate outlet that is properly installed and grounded in accordance with all local codes and ordinances.

WARNING – Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or service person if you are in doubt as to whether the outlet is properly grounded. Do not modify the plug provided with the appliance – if it will not fit the outlet, have a proper outlet installed by a qualified electrician.

This appliance is for use on a nominal 120 V circuit and has a grounding attachment plug that looks like the plug illustrated as the following photo. Make sure that the appliance is connected to an outlet having the same configuration as the plug. No adaptor should be used with this appliance.

For INDOOR household use ONLY.

This device contains licence-exempt transmitter(s)/ receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

To satisfy FCC&IC RF exposure requirements, a separation distance of 20 cm or more should be maintained between the antenna of this device and persons during device operation.

To ensure compliance, operations at closer than this distance is not recommended.

Device Update

Typically, some devices are updated bi-monthly, but not always so specific.

Some devices, especially those that went on sale more than three years ago, will only be updated if a critical vulnerability is found and fixed.

PACKAGE CONTENTS

① Package Contents

DEEBOT

OMNI Station

Base

Instruction Manual

Power Cord

Note:

* Figures in this manual are for reference only and may differ from the appliance. Product design and specifications are subject to changes without notice.

② Product Diagram

1. DEEBOT Front View

Button on DEEBOT:

Press: Toggle start/Pause

Press for 3 s: Return to the station

Double Tap: Release/Retract the mop
(DEEBOT not in the station)

2. DEEBOT Bottom View

Anti-drop Sensors

3. Inside DEEBOT (Under the Top Cover)

RESET Button

Network Setup: Press the RESET Button, and a voice prompt will be heard to connect DEEBOT to the App.

Restore default settings: Press and hold the RESET button for 5 seconds. After hearing the voice prompt, the startup music will play, and DEEBOT will be restored to its default settings. Once restored, current maps and cleaning settings will be deleted. Exercise caution when using this function.

4. Dust Bin

Dust Bin Cover

Filter

Filter Holder

Dust Disposal Port

5. OMNI Station Front View

Dirty Water Tank

Clean Water Tank

Note:

- Do not remove DEEBOT while it's washing the mop in the station.
- If DEEBOT fails to charge, please wipe the charging contacts with a clean and dry cloth.

6. Dust Bag

Dust Bag Handle

7. OMNI Station Back View

8. Indicator Light on DEEBOT

Light Effect	State
Breathing White	Charging
Solid White	Fully Charged/Running
Solid Red	Low Battery
Flashing Red	DEEBOT Alarm
Flashing Orange	Station Alarm

Note:

- Flashing Orange / Red: Please check the ECOVACS HOME APP for the cause of the malfunction.

9. Sensors Overview

Name	Functional Description
Navigation Module	Laser Ranging is applied to measure the distance between DEEBOT and surrounding objects based on the time difference of reflection, allowing the module to map against the objects around while DEEBOT is moving. The detection range is 10 m.
Obstacle Avoidance Module	Infrared Ranging and similar triangles are applied to measure the distance between the surrounding objects and DEEBOT. When the sensor detects an object nearby, DEEBOT will automatically take a turn to avoid bumping into the object. The detection range is 0.3 m.
Anti-drop Sensors	Using the Time-of-Flight (dToF) principle, the dToF sensor located on DEEBOT's bottom continuously measures the distance between DEEBOT and the ground. Meanwhile, infrared sensors on the bottom detect the distance using infrared ranging technology. DEEBOT will not move forward when there are stairs in front (such as when the height of the white surface is 55 mm or more, or the height of the black surface is 30 mm or more) and the identified height exceeds the preset one, realizing the anti-drop feature.
Carpet Detection Sensor	The sensor emits 300 kHz ultrasound, whose energy will be absorbed by the carpet, causing the echoed energy to be lower than the threshold. DEEBOT thereby detects the carpet's presence. In the ECOVACS laboratory, more than 50 types of carpets available on the market are identified.
Anti-collision Sensor	With the principle of the Optocoupler Switch, DEEBOT will avoid obstacles when they are about to collide.
Edge Sensor	With Infrared Ranging, the edge sensor detects the distance between the DEEBOT and objects on the side. When there is a wall or obstacles on the right, the DEEBOT performs edge cleaning to avoid missing any spots and prevent collisions.
AIVI Camera	AI intelligent analysis enables environmental sensing and efficient video management (available on some models).

INITIAL SETUP AND USE

1 Notes before Cleaning

Tidy up the Area to be Cleaned

For the maximum cleaning area possible, put furniture, such as tables, chairs, and pedestal fans, in their proper place and put away low-lying items, such as weight scales, before using DEEBOT.

Prevent DEEBOT from Falling

Place a physical barrier at the edge of a drop, such as staircases and steps, to stop DEEBOT from falling over the edge.

Open Doors and Help DEEBOT Explore

Open all room doors to help DEEBOT fully explore your house during the first use.

Remove objects, including cables, clothes, and slippers, from the floor to improve cleaning efficiency.

Before using the product on a carpet with tasseled edges, please fold the tassels under the carpet.

Please do not stand in narrow spaces, such as hallways, to avoid blocking the navigation module.

Ensure the clarity of the DEEBOT's vision and avoid scratching or smudging the AI/VI camera lens with fingerprints or oily stains. Use a clean, soft cloth to wipe the camera, instead of cleaning agents, detergents, or sprays.

Provide Sufficient Lighting

Ensure all cleaning areas are well-lit to support DEEBOT's AI/VI camera in accurately avoiding obstacles such as shoes, socks, and cords.

2 Quick Start

Remove all protective materials before using the appliance.

1. Station Installation

The sound of "click" indicates proper installation.

2. Assemble and Place the Station

Place the OMNI station against the wall on a flat, hard surface. Do not place items within 0.05 m on either side and 0.8 m in front.

Note:

- If there are reflective objects such as mirrors and reflective skirting lines near the station, the bottom 14 cm of such objects should be covered.
- Do not place the station under direct sunlight or in high-temperature environments.
- Place the station in a location with a strong Wi-Fi signal for a better user experience.
- A slight mechanical sound from the bottom of the station indicates the station is powered on.

3 Download ECOVACS HOME APP

To enjoy all available features, it is recommended that you control your DEEBOT via the ECOVACS HOME App.

Scan the QR code under the top cover to download the App.

Or search "ECOVACS HOME" on the App Store or Google Play to download the App.

Note: Follow the instructions on the App to complete the registration, login, and connection.

4 Connect DEEBOT with APP

Via Bluetooth: Turn on DEEBOT and your mobile phone Bluetooth. Allow the App to obtain mobile phone Bluetooth permission. Tap to scan the QR Code on DEEBOT or tap  or  in the App to find the nearby DEEBOT.

Via Wi-Fi: You can also choose to connect DEEBOT with the App through other methods according to the prompts on the App's page.

Note: Please connect via Bluetooth for a better experience.

Wi-Fi Network Requirements:

- You are using a 2.4GHz or 2.4/5 GHz mixed network.
- Your router supports 802.11b/g/n and IPv4 protocol.
- Do not use a VPN (Virtual Private Network) or Proxy Server.
- Do not use a hidden network.
- WPA and WPA2 using TKIP, PSK, AES/CCMP encryption.
- WEP EAP (Enterprise Authentication Protocol) is not supported.
- Use Wi-Fi channels 1-11 in North America and channels 1-13 outside North America (refer to local regulatory agency).
- If you are using a network extender/repeater, the network name (SSID) and password are the same as your primary network.
- Please enable the WPA2 on your router.

Wi-Fi Indicator Light

	Slow flashing white light	Disconnected from Wi-Fi
	Fast flashing white light	Connecting
	Steady white light	Connected to Wi-Fi

Please be aware that intelligent features such as remote startup, 2D/3D map display and control settings, and personalized cleaning (depending on the Appliance) require the ECOVACS HOME APP, which is constantly updated. You need to agree to our Privacy Policy and User Agreement so that we can process some of your essential and necessary information before you can use certain features of the ECOVACS HOME APP to control the Appliance. If you disagree with our Privacy Policy and User Agreement, such features will be unavailable. However, you can still use the basic features of this appliance for manual operation.

5 Power on and Charge DEEBOT

Move DEEBOT back to the station. The voice prompt "Start charging" and a breathing white light indicate a successful docking and charging in progress. DEEBOT then starts charging.

Note:

- DEEBOT cannot charge when it is powered off.
- After cleaning, it is recommended to keep DEEBOT powered on and charging to ensure it is ready for the next cleaning session.
- Please start cleaning from the station. Do not move the station while cleaning.

6 Fill the Clean Water Tank

Fill the clean water tank with water. If desired, add the appropriate amount of cleaning solution using the bottle cap. Secure the tank cover, shake gently to mix, and use.

Note:

- Do not add hot water, as it may cause deformation.
- The water inside the tank may appear as water stains due to the function test. It is safe to use.
- For a longer lifespan of the product, please use ECOVACS' official cleaning solution(sold separately).

7 Operate DEEBOT for Cleaning

1. Start Mapping

Before the first mapping, please help eliminate a few potential issues.

For example, DEEBOT may get stuck under furniture. Please refer to the following solutions:

- ① Raise the low-sitting furniture if possible;
- ② Cover the bottom of the furniture.

2. Start Cleaning

Please ensure that DEEBOT is in the station and is fully charged before cleaning for the first time. Tap  on DEEBOT to start. You can also use the ECOVACS HOME App to start.

For the first use, Please start vacuuming for 2-3 times before starting mopping for better cleaning performance.

The DEEBOT's water tank is automatically refilled through the station. Manual refilling is not needed.

When mopping, DEEBOT will recognize floor types and is able to lift mops automatically when encountering carpets. Please do not use DEEBOT on shaggy rugs or carpets with fibres longer than 10 mm. It is recommended to fold up the shaggy rugs with fibres longer than 10 mm during the cleaning process, or set the shaggy carpeted area as a no-entry zone by setting a virtual boundary in the ECOVACS HOME App.

3. Pause

Tap  on DEEBOT to pause it while it is working. You can also use the ECOVACS HOME APP to pause DEEBOT.

4. Wake Up

After pausing for a while, all indicator lights on DEEBOT will go out. To wake up DEEBOT, press . Alternatively, use the ECOVACS HOME App to resume DEEBOT's operation.

5. Back to Station

Use the ECOVACS HOME APP to recall DEEBOT, or press and hold the  button on DEEBOT for 3 s, to allow DEEBOT to dock for charging.

6. Deep Sleep Mode

DEEBOT will enter deep sleep mode if it stays outside the station for about 10 h to protect the battery. Please switch OFF and ON to wake DEEBOT up. If there is no response, place DEEBOT back to the station for charging.

REGULAR MAINTENANCE

1 Maintenance Frequency

To keep DEEBOT running at peak performance, perform maintenance and replace parts at the following frequencies:

Part	Maintenance Frequency	Replacement
Washable Roller Mop	/	Every 1-2 months
Drip Tray	Every week	/
Dust Bag	/	When the App prompts
Side Brush	Every 2 weeks	Every 3-6 months
Main Brush	Every week	Every 6-12 months
Filter	Every week	Every 3-6 months
Universal Wheel Anti-drop Sensors Edge Sensor Bumper Charging Contacts on DEEBOT Charging Contacts on OMNI Station Navigation Module Obstacle Avoidance Module AIVI Camera	Approx. every month	/
Clean Water Tank	Every 3 months	/
Dirty Water Tank	Every month	/
Body and Bottom of the Station	Every month	/
Mop Washing Tray	Every 5 months	/

Note: Explore more accessories at the ECOVACS HOME APP or at <https://www.ecovacs.com>.

DEEBOT MAINTENANCE

① Maintain Dust Bin

Clean the Dust Bin

1. Remove the dust bin and then empty it.

2. Open the filter net and remove the filter.

3. Rinse the dust bin and filter with water, and shake off the water droplets.

Note:

- Please rinse the filter with water as shown.
- Do not use fingers or brushes to clean the filter.

4. Air-dry the dust bin and filter.

Note: Completely dry the components before use.

2 Maintain Main Brush and Side Brush

Clean the Main Brush

1. Remove the cover from the main brush.

2. Remove and clean the main brush.

3. Install the main brush and the cover.

Clean the Side Brush

Remove the side brush using a screwdriver and clean it.

Note: Explore more accessories at the ECOVACS HOME APP or at <https://www.ecovacs.com>.

3 Maintain Roller Mop

Clean the Roller Mop

1. Double tap  button to release roller mop component.

Note: Do not pull the roller forcefully while it is retracted, as this may damage the roller mop component.

2. Press the lateral unlock button to remove the roller and then detach the roller end cover.

3. Clean the roller end cover and the roller mop.

4. Lift the roller shaft and clean both the roller axle and the roller chamber.

Note: Do not wash DEEBOT with water.

5. Push the roller mop into the roller end cover and double tap the  button to retract.

4 Maintain Clean Drip Tray

Clean the Drip Tray

1. Remove the drip tray.

Note: A small amount of residual water may leak out when flipping DEEBOT if it's not in drying mode.

2. Clean drip tray.

3. Please install the drip tray filter components as shown in the illustration.

5 Maintain Other Components

Clean the Obstacle Avoidance Module

Clean the Bumper

Clean the Navigation Module

Clean the Edge Sensor

Clean Charging Contacts

Clean the Anti-drop Sensors

Note: Charging contacts contain sensitive electronic components. Clean them with a dry cloth. Do not use a wet cloth to prevent water damage.

Clean the Universal Wheel

Clean the Driving Wheels

STATION MAINTENANCE

① Maintain Dust Bag

1. Remove the dust collection cabin cover.

2. Remove the disposable dust bag in the direction of the arrow and discard it.

Note: Hold the handle to lift out the dust bag, which can effectively prevent dust leakage.

3. Clean the dust collection cabin with a dry cloth and install a new dust bag.

4. Install the dust collection cabin cover and press both sides to ensure a tight seal.

2 Maintain Mop Washing Tray

1. Clean the station base.

2. Clean the mop washing tray base and the tray filter.

3. Install the mop washing tray and base.

Note: Please install the tray and base properly to prevent malfunction.

3 Storage

Please fully charge and switch OFF DEEBOT before storage. Please recharge it every 1.5 months to prevent the battery from over-discharging.

! Please note that DEEBOT cannot charge when powered OFF.

Note:

- After DEEBOT finishes its cleaning task, it is recommended not to power it off but to keep it charging, to better prepare for the next cleaning session.
- If the battery is over-discharged or not used for a long time, DEEBOT may not be charged. Please contact ECOVACS for help. Do not disassemble the battery by yourself.
- If you do not use the product for a long time, keep the water tanks empty, and the roller mop dry.

TROUBLESHOOTING

For the following possible issue, refer to the corresponding solutions.

No.	Malfunction	Possible Cause	Solution
1	DEEBOT is not able to connect to the ECOVACS HOME App.	Incorrect Wi-Fi username or password entered.	Enter the correct Wi-Fi username and password.
		DEEBOT is not within range of your home Wi-Fi signal.	Make sure DEEBOT is within range of your home Wi-Fi signal. Try to stay as close to the router as possible.
		DEEBOT is not in the configuration state.	Press the reset button to connect DEEBOT to your phone by Bluetooth. If it fails, please reconnect as guided by the ECOVACS HOME App.
		There is no home Wi-Fi on the Wi-Fi list.	1.Check if the Wi-Fi name contains special characters. Please do not use special characters like ! @#& ¥%/\. 2.Do not use a 5 GHz network.
		An incorrect App is installed.	Please refer to the [Download ECOVACS HOME APP] section to download and install the App.
2	Unable to create the furniture map in the App.	Moving DEEBOT when cleaning might cause the map to be lost.	During cleaning, do not move DEEBOT.
		Auto cleaning is not finished.	Make sure DEEBOT automatically returns to the OMNI Station after cleaning.
		Multi-floor mode was not enabled when the second map was created.	Please enable multi-floor mode in the App.
3	The side brush drops out of place during use.	The side brush is not properly installed.	When installing the side brush with a screwdriver, ensure the screw is tightened securely.
4	No signal found. Unable to return to the station.	The OMNI Station is incorrectly placed.	Place the station properly according to the instructions in the [Power on and Charge DEEBOT] section.
		The OMNI Station is out of power or has been moved.	Check whether the OMNI Station is connected to the power supply. Do not move the OMNI Station.
		DEEBOT does not start cleaning from the OMNI Station.	It is recommended that DEEBOT start cleaning from the OMNI Station.
		The docking route is blocked. For example, the door is closed to the room where the OMNI Station is placed.	Keep the charging route clear.

No.	Malfunction	Possible Cause	Solution
5	DEEBOT returns to the OMNI Station before it has finished cleaning.	The room is so large that DEEBOT needs to return to recharge.	Please enable auto-resume. For more details, please follow the App instructions.
		In highly complex home layouts, cleaning efficiency may decrease, possibly resulting in incomplete cleaning.	Simplify your home layout.
6	DEEBOT is unable to charge.	DEEBOT is not switched ON.	Switch ON DEEBOT.
		DEEBOT's charging contacts are not connected to the OMNI station's charging contacts.	Make sure that DEEBOT's charging contacts have connected to the station's charging contacts and  flashes. Check whether DEEBOT's and OMNI station's charging contacts are dirty. Please clean these parts according to the instructions in the [REGULAR MAINTENANCE] section.
		The OMNI Station is not connected to the power supply.	1. Make sure the OMNI station is connected to power supply. 2. Once the power is connected, ensure that the motor startup sound can be heard.
		The base has not been installed in place.	Refer to the [Quick Start] section for correct installation.
7	DEEBOT is very loud during cleaning.	The main brush/side brush is tangled, or the dust bin/roller mop/filter is blocked.	It is recommended to clean the main brush, side brush, dust bin, roller mop, filter, etc., regularly.
		DEEBOT is in Strong Suction Mode or Max Suction Power.	Switch to Standard Mode.
8	DEEBOT gets stuck while working and stops.	DEEBOT is tangled with objects on the floor (electrical wires, curtains, carpet fringing, etc.).	DEEBOT will try various ways to free itself. If its attempts fail, manually remove the obstacles and restart.
		DEEBOT might be stuck under furniture with an entrance of similar height.	Please raise the furniture, set a physical barrier, or set a virtual boundary via the ECOVACS HOME App.
		DEEBOT is stuck in a narrow area.	Tidy up your home, set a physical barrier, or set a virtual boundary via the ECOVACS HOME App.
		DEEBOT is stuck on a step or threshold.	Refer to the guidance in the App to set up a threshold ramp or a virtual boundary.

No.	Malfunction	Possible Cause	Solution
9	During cleaning, DEEBOT may encounter issues like a disorderly route, biased movement, repeated cleaning over the same spots, and missing small areas. (If there is a large area that has not been cleaned temporarily, DEEBOT will automatically clean the missed area. Sometimes DEEBOT will re-enter a cleaned room, which may not be repeated cleaning, but DEEBOT finds any missed area.)	Objects such as wires and slippers placed on the ground block DEEBOT.	Before cleaning, please tidy up scattered wires, slippers, and other objects on the ground as much as possible. If there is any area missed during cleaning, DEEBOT will correct it automatically. Please refrain from interfering (such as moving DEEBOT or blocking its route).
		The driving wheels may slip on the ground when DEEBOT climbs steps, thresholds, and door bars, which can affect its judgment of the entire home environment.	It is recommended to close the door of the affected area and clean it separately. After cleaning, DEEBOT will return to its starting location.
		On freshly waxed or polished floors, as well as smooth tiles, there may be less friction between the driving wheels and the floor.	Please wait for the wax to dry before cleaning.
		Due to variations in home layouts, some areas cannot be entered by DEEBOT.	Tidy up your home to ensure that DEEBOT can enter the areas to be cleaned.
10	Delay in remote control.	The Wi-Fi signal is poor, causing the video loading to be slow.	Use DEEBOT in areas with a good Wi-Fi signal.
11	After returning to the OMNI station, DEEBOT does not empty its dust bin.	The Auto-Empty function has not been turned on in the ECOVACS HOME App.	Turn on the Auto-Empty function in the ECOVACS HOME App.
		Manually moving DEEBOT back to the station will not trigger the Auto-Empty function.	It is recommended to allow DEEBOT to return to the OMNI Station on its own. Please do not manually move it.
		In Do Not Disturb mode, DEEBOT will not empty the dust after returning to the OMNI Station.	Turn off Do Not Disturb in the ECOVACS HOME App or manually start dust-emptying.
		The station detects a decrease in empty efficiency.	Replace the dust bag according to the [REGULAR MAINTENANCE] section and close the dust collection cabin. If the dust bag is not full when prompted by the App, you can put it back again.
		Check if the dust bin is full and causes a blockage.	Clean the dust bin according to the [REGULAR MAINTENANCE] section.
		If the above possible causes have been ruled out, components of the station may be abnormal.	Please contact customer service for assistance.

No.	Malfunction	Possible Cause	Solution
12	Auto-Empty unsuccessful.	The station detects a decrease in empty efficiency.	Replace the dust bag according to the [REGULAR MAINTENANCE] section and close the dust collection cabin. If the dust bag is not full when prompted by the App, you can put it back again.
		The outlet of the dust bin is blocked by foreign objects.	Remove the dust bin and clear the foreign objects on the outlet.
13	The inner side of the dust collection cabin is dirty.	Fine particles pass through the dust bag and accumulate on the inner side of the dust collection cabin.	Clean the inner side of the dust collection cabin.
		The dust bag is broken.	Check and replace the dust bag.
		The dust bag is not properly installed.	Please install the dust bag properly.
		The dust collection cabin cover is not closed.	Please check if the dust collection cabin cover is closed properly.
14	Dust leakage occurs while DEEBOT is working.	The outlet of the dust bin is blocked by foreign objects.	Remove the dust bin and clear the foreign objects on the outlet.
		The main brush or its chamber is blocked by foreign objects or dirt.	Refer to the [REGULAR MAINTENANCE] section to clean the main brush and its chamber.
15	The roller mop does not rotate.	The roller mop is not correctly installed.	Install the roller mop properly according to the [REGULAR MAINTENANCE] section.
		The roller mop is blocked by foreign objects.	Clean and install the roller mop properly according to the [REGULAR MAINTENANCE] section.
16	The driving wheel is stuck.	The driving wheel is entangled or stuck due to foreign objects.	Rotate and press the driving wheel to check for any wrapping or obstruction by foreign objects. If any foreign objects are found, please clean them promptly. If this issue persists, please contact customer service for assistance.

No.	Malfunction	Possible Cause	Solution
17	The mop washing tray is full of water and cannot be emptied. A voice prompt reports the mop washing tray malfunction.	The dirty water tank is not properly installed.	Tap down on the dirty water tank to ensure it is properly installed.
		The sealing plugs in the dirty water tank are not installed properly.	Make sure that the two sealing plugs are properly installed.
		The mop washing tray is not properly installed.	Check and ensure the mop washing tray is properly installed.
		The mop washing tray base gets dirty.	Detach and wash the mop washing tray base with water.
		Check if the floating ball gets stuck when there is no water in the mop washing tray base.	Take out the mop washing tray to put the floating ball back in place.
		The OMNI Station cannot drain water normally.	Place DEEBOT in the station. After ensuring it's charging, double tap  . If the issue persists, please contact customer service for assistance.
		The suction port of the mop washing tray is blocked by foreign objects.	Ensure that there is no foreign object in the suction port of the mop washing tray.
		The voice alert persists after all the above solutions are tried.	Power off and on the station. If this issue persists, please contact customer service for assistance.
18	Frequent auto-wash.	The drip tray is overly laden with dust.	Remove and empty the drip tray, and then rinse it and reinstall. If this issue persists, please contact customer service for assistance.

Please contact our customer service for assistance if the problem persists despite the recommended solutions.

TECHNICAL SPECIFICATIONS

Model	DEX96
Rated Input	20V === 2A
Charging Time	About 3.5 h
Station Model	CH2561
Rated Input	110-120V ~ 50-60Hz
Nominal charge output	20V === 2A
Rated Input Current(Charging)	1 A
Power(Emptying)	4.5 A
Power(Hot Water Washing Mop)	13 A

Output power of the wireless module is less than 100 mW.

Note: Technical and design specifications may be changed for continuous product improvement.

CONSIGNES DE SÉCURITÉ IMPORTANTES

CONSIGNES DE SÉCURITÉ IMPORTANTES

LISEZ TOUTES LES INSTRUCTIONS AVANT D'UTILISER CET APPAREIL.

Lors de l'utilisation d'un appareil électrique, il faut toujours suivre les précautions de base, notamment les suivantes :

AVERTISSEMENT : lisez tous les avertissements et toutes les instructions de sécurité.

Le non-respect des avertissements et instructions peut entraîner un choc électrique, un incendie ou des blessures graves.

1. Ne permettez pas l'utilisation de l'appareil comme s'il s'agissait d'un jouet. Une attention particulière est nécessaire lorsqu'il est utilisé par des enfants ou à proximité de ceux-ci.
2. Dégagez la zone à nettoyer. Retirez les cordons d'alimentation et les petits objets du sol qui pourraient enchevêtrer l'appareil. Rentrez les franges du tapis sous la base du tapis et soulevez les articles tels que les rideaux et les nappes du sol.
3. S'il y a une chute dans la zone de nettoyage

en raison d'une marche ou d'un escalier, vous devez utiliser l'appareil pour vous assurer qu'il peut détecter la marche sans chuter. Il peut être nécessaire de placer une barrière physique sur le bord pour empêcher l'appareil de tomber. Assurez-vous que la barrière physique ne présente pas de risque de trébuchement.

4. Utilisez l'appareil uniquement comme décrit dans le présent manuel. N'utilisez que des accessoires recommandés ou vendus par le fabricant.
5. Ne manipulez pas la fiche ou l'appareil avec les mains mouillées.
6. Les piles non rechargeables sont interdites.
7. N'utilisez pas l'appareil sans bac à poussière et/ou filtres en place.
8. N'utilisez pas l'aspirateur dans un endroit où il y a des bougies allumées ou des objets fragiles sur le sol à nettoyer.
9. N'utilisez et n'entrez pas l'appareil dans des environnements extrêmement chauds ou froids (moins de -5 °C / 23 °F ou plus de 40 °C / 104 °F). Veuillez recharger le robot à une température supérieure à 0 °C/32 °F et inférieure à 40 °C/104 °F.
10. Gardez les cheveux, les vêtements amples, les

doigts et toutes les parties du corps à l'écart des ouvertures et des pièces mobiles.

11. N'utilisez pas l'appareil dans une pièce où un bébé ou un enfant dort.
12. Pour un usage à L'INTÉRIEUR SEULEMENT. N'utilisez pas l'appareil dans des environnements extérieurs, commerciaux ou industriels. N'utilisez pas l'appareil sur des surfaces mouillées ou sur lesquelles il y a de l'eau stagnante.
13. Ne laissez pas l'appareil ramasser de gros objets, comme des pierres, de gros morceaux de papier ou tout autre objet qui pourrait l'obstruer.
14. N'utilisez pas l'appareil pour ramasser des matériaux inflammables ou combustibles, comme de l'essence, de la poudre d'encre d'imprimante ou de photocopieur, et ne l'utilisez pas dans des endroits où il pourrait y en avoir.
15. Ne ramassez rien qui brûle ou fume, comme des cigarettes, des allumettes, des cendres chaudes ou toute autre chose qui pourraient causer un incendie.
16. Ne mettez aucun objet dans les ouvertures. N'utilisez pas l'appareil alors qu'une ouverture est bloquée; maintenez-le exempt de poussière,

de peluches, de cheveux et de tout ce qui peut réduire la circulation de l'air.

17. Prenez soin de ne pas endommager le cordon d'alimentation. Ne tirez pas ou ne transportez pas l'appareil ou la station d'accueil par le cordon d'alimentation, n'utilisez pas le cordon d'alimentation comme poignée, ne fermez pas une porte sur le cordon d'alimentation et ne tirez pas sur le cordon d'alimentation autour de bordures ou des coins tranchants. Ne déplacez pas l'appareil et la station d'accueil par-dessus le cordon d'alimentation. Gardez le cordon d'alimentation à l'écart des surfaces chaudes. Ne débranchez pas l'appareil en tirant sur le cordon. Pour procéder au débranchement, prenez la fiche et non le cordon.
18. Si le cordon d'alimentation est endommagé, il doit être remplacé par le fabricant ou son agent de service afin d'éviter tout danger.
19. N'utilisez pas l'appareil s'il a un cordon d'alimentation ou une fiche endommagée. N'utilisez pas l'appareil ou la station d'accueil s'il ne fonctionne pas correctement, s'il est tombé, endommagé, s'il est laissé à l'extérieur ou s'il est entré en contact avec de l'eau. Il doit être réparé par le fabricant ou son agent de

- service afin d'éviter tout danger.
20. Mettez l'interrupteur d'alimentation en position d'arrêt avant de nettoyer ou d'entretenir l'appareil. Éteignez toutes les commandes avant de procéder au débranchement. Éteignez toujours cet appareil avant de brancher ou de débrancher la brosse motorisée.
 21. Mettez l'interrupteur d'alimentation en position d'arrêt avant de retirer le bac à poussière.
 22. Retirez l'appareil de la station d'accueil et mettez l'interrupteur d'alimentation de l'appareil en position d'arrêt avant de retirer la batterie pour la mise au rebut de l'appareil.
 23. La batterie doit être retirée et jetée conformément aux lois et réglementations locales avant de mettre au rebut l'appareil.
 24. Veuillez jeter les batteries usagées conformément aux lois et réglementations locales.
 25. N'incinerez pas l'appareil même s'il est gravement endommagé. En cas d'incendie, les batteries peuvent exploser.
 26. Lorsque vous n'utilisez pas la station d'accueil, débranchez-la de la prise lorsqu'elle n'est pas utilisée et avant un entretien.
 27. L'appareil doit être utilisé conformément aux

- instructions du présent manuel d'instructions. Ecovacs Home Service Robotics ne peut être tenu responsable des dommages ou blessures causés par une mauvaise utilisation.
28. Évitez les démarrages involontaires. Assurez-vous que l'interrupteur est en position d'arrêt avant d'effectuer la connexion au bloc-pile, de ramasser ou de transporter l'appareil.
 29. Lorsque le bloc-pile n'est pas utilisé, gardez-la à l'écart des autres objets métalliques, comme les trombones, pièces de monnaie, clés, clous, vis ou autres petits objets métalliques, qui peuvent établir une connexion d'une borne à l'autre. Court-circuiter les bornes de la batterie peut causer des brûlures ou un incendie.
 30. Dans des conditions abusives, du liquide peut être éjecté de la batterie; Évitez le contact. En cas de contact accidentel, rincez à l'eau. Si du liquide entre en contact avec les yeux, consultez également un médecin. Le liquide éjecté de la batterie peut causer une irritation ou des brûlures.
 31. N'utilisez pas un bloc-pile ou un appareil endommagé ou modifié. Les batteries endommagées ou modifiées peuvent présenter un comportement imprévisible entraînant

- un incendie, une explosion ou un risque de blessures.
32. N'exposez pas un bloc-pile ou un appareil au feu ou à une température excessive. L'exposition à du feu ou à une température supérieure à 130 °C peut causer une explosion. La température de 130 °C peut être remplacée par la température de 265 °F.
33. Suivez toutes les instructions de recharge et ne rechargez pas le bloc-pile ou l'appareil en dehors de la plage de températures spécifiée dans les instructions. Une charge incorrecte ou à des températures hors de la plage spécifiée peut endommager la batterie et augmenter le risque d'incendie.
34. Faire effectuer l'entretien par un réparateur qualifié en utilisant uniquement des pièces de rechange identiques. Cela permettra de maintenir l'innocuité du produit.
35. Ne modifiez pas et n'essayez pas de réparer l'appareil ou le bloc-pile (le cas échéant), sauf dans les cas indiqués dans le mode d'emploi et d'entretien.
36. Placez les cordons des autres appareils à l'extérieur de la zone à nettoyer.
37. N'utilisez pas l'aspirateur dans une pièce où il y a des bougies allumées sur des meubles que l'aspirateur pourrait accidentellement heurter.
38. Ne laissez pas les enfants s'asseoir sur l'aspirateur.
39. Utilisez l'appareil uniquement comme décrit dans le présent manuel. N'utilisez que les accessoires recommandés par le fabricant.
40. Recharger uniquement avec le chargeur spécifié par le fabricant. Un chargeur qui est adapté à un type de bloc-pile peut créer un risque d'incendie lorsqu'il est utilisé avec un autre bloc-pile.
41. N'utilisez les appareils qu'avec des blocs-piles spécifiquement conçus. L'utilisation de tout autre bloc-piles peut créer un risque de blessure et d'incendie.
42. Le robot contient des batteries qui ne peuvent être remplacées que par des personnes qualifiées. Pour remplacer la batterie du robot, veuillez contacter le service à la clientèle.
43. Si le robot n'est pas utilisé pendant une période prolongée, chargez-le complètement et éteignez-le pour le ranger et débranchez la station d'accueil.
44. Pour réduire le risque d'électrocution – N'utilisez pas l'appareil à l'extérieur ni sur des surfaces mouillées. N'exposez pas l'appareil à la pluie.

- Conservez l'appareil à l'intérieur.
45. Pour réduire le risque de blessure causée par les pièces mobiles, débranchez l'appareil avant l'entretien.
 46. Risque de blessures. La brosse peut démarrer de manière inattendue. Procédez au débranchement avant d'effectuer un nettoyage ou un entretien.
 47. Pour réduire le risque de blessures, l'utilisateur doit lire le manuel d'instructions.
 48. Pour réduire le risque d'électrocution – Ne pas utiliser à l'extérieur ni sur des surfaces mouillées.
 49. Veuillez vous assurer que votre tension d'alimentation correspond à la tension d'alimentation indiquée sur la station d'accueil.
 50. N'utilisez pas la station d'accueil si elle est endommagée.
 51. La fiche doit être retirée de la prise avant de nettoyer ou d'entretenir la station d'accueil.
 52. Interrupteur d'alimentation : « I » = ON, « O » = OFF.
 53. Connectez-le à une prise correctement mise à la terre seulement. Consultez les instructions de mise à la terre.

	Courant continu
	Courant alternatif

Cet appareil est conforme aux règles sur les rayonnements du DHHS, 21CFR, chapitre 1, sous-chapitre J.

Déclaration sur les interférences de la Federal Communications Commission (FCC)

REMARQUE : Cet équipement a été testé et jugé conforme aux limites d'un appareil numérique de classe B, conformément à la partie 15 des règles de la FCC.

Ces limites sont conçues pour fournir une protection raisonnable contre les interférences nuisibles dans une installation résidentielle. Cet équipement génère, utilise et peut produire de l'énergie de radiofréquence et, s'il n'est pas installé et utilisé conformément aux instructions, peut causer des interférences nuisibles aux communications radio.

Cependant, il n'y a aucune garantie qu'il n'y aura pas d'interférence dans une installation en particulier. Si cet équipement cause des interférences nuisibles à la réception radio ou télévision, ce qui peut être déterminé en éteignant et en rallumant l'équipement, l'utilisateur est encouragé à essayer de corriger l'interférence par l'une ou plusieurs des mesures suivantes :

- Réorienter ou déplacer l'antenne de réception.

- Augmenter l'espacement entre l'équipement et le récepteur.
- Brancher l'équipement dans une prise d'un circuit différent de celui auquel le récepteur est connecté.
- Consulter le détaillant ou un technicien radio ou télé expérimenté pour obtenir de l'aide.

Cet appareil est conforme à la partie 15 des règles de la FCC. L'utilisation est assujettie aux deux conditions suivantes :

(1) Cet appareil ne doit pas causer d'interférences nuisibles et (2) il doit accepter toute interférence reçue, y compris les interférences qui peuvent causer un fonctionnement indésirable.

Mise en garde : Les changements ou les modifications apportés à cet appareil qui ne sont pas expressément approuvés par la partie responsable de la conformité pourraient annuler le droit de l'utilisateur d'utiliser l'équipement.

Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux CNR exempts de licence d'Innovation, Sciences et Développement économique Canada. L'utilisation est assujettie aux deux conditions suivantes :

- (1) Cet appareil ne doit pas causer d'interférence.
- (2) Cet appareil doit accepter toute interférence, y com-

pris les interférences qui pourraient causer un fonctionnement indésirable de l'appareil.

Avertissement d'exposition aux RF

Cet équipement est conforme aux limites d'exposition au rayonnement de la FCC établies pour un environnement non contrôlé.

Cet équipement doit être installé et utilisé conformément aux instructions fournies, et les antennes utilisées pour cet émetteur doivent être installées de manière à assurer une distance de séparation d'au moins 20 cm de toutes les personnes et ne doivent pas être placées à côté ou fonctionner conjointement avec une autre antenne ou émetteur.

Mise en garde de la MPE (pour les appareils mobiles en vertu de la partie 15.247)

Pour satisfaire les exigences relatives à l'exposition aux RF de la FCC et d'IC, une distance de séparation de 20 cm ou plus doit être maintenue entre l'antenne de cet appareil et les personnes pendant le fonctionnement de l'appareil.

Pour assurer la conformité, il n'est pas recommandé d'utiliser l'appareil à une distance inférieure à cette indication.

Pour désactiver le module Wi-Fi sur le DEEBOT, procédez comme suit : allumez le robot, puis placez-le sur la station OMNI, en vous assurant que les contacts de

charge sur le DEEBOT et la station sont correctement connectés, et maintenez enfoncé le bouton  pendant 30 secondes jusqu'à ce que vous entendiez des bips.

Pour activer le module Wi-Fi sur le DEEBOT, veuillez redémarrer le robot. De plus, débranchez et branchez la station.

CONSERVEZ CES INSTRUCTIONS

INSTRUCTIONS DE MISE À LA TERRE

Cet appareil doit être mis à la terre. En cas de dysfonctionnement ou de panne, la mise à la terre fournit un chemin de moindre résistance pour le courant électrique afin de réduire le risque d'électrocution. Cet appareil est équipé d'un cordon doté d'un conducteur de mise à la terre de l'équipement et d'une fiche de mise à la terre. La fiche doit être insérée dans une prise appropriée correctement installée et mise à la terre conformément à tous les codes et toutes les ordonnances locaux.

AVERTISSEMENT – Une mauvaise connexion du conducteur de mise à la terre de l'équipement peut entraîner une électrocution. Vérifiez auprès d'un électricien ou d'un technicien qualifié si vous avez des doutes quant à la mise à la terre. Ne modifiez pas la fiche fournie avec l'appareil – si elle ne s'adapte pas à la prise, faites installer une prise appropriée par un électricien qualifié.

Cet appareil est destiné à être utilisé sur un circuit nominal de

120 V et possède une fiche de mise à la terre qui ressemble à celle illustrée sur la photo suivante. Assurez-vous que l'appareil est connecté à une prise ayant la même configuration que la fiche. Aucun adaptateur ne doit être utilisé avec cet appareil.

Pour un usage domestique à L'INTÉRIEUR SEULEMENT.

Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux CNR exempts de licence d'Innovation, Sciences et Développement économique Canada. L'utilisation est assujettie aux deux conditions suivantes :

(1) Cet appareil ne doit pas causer d'interférence.

(2) Cet appareil doit accepter toute interférence, y compris les interférences qui pourraient causer un fonctionnement indésirable de l'appareil.

Pour satisfaire les exigences relatives à l'exposition aux RF de la FCC et d'IC, une distance de séparation de 20 cm ou plus doit être maintenue entre l'antenne de cet appareil et les personnes pendant le fonctionnement de l'appareil.

Pour assurer la conformité, il n'est pas recommandé d'utiliser l'appareil à une distance inférieure à cette indication.

Mise à jour de l'appareil

Généralement, certains appareils sont mis à jour tous les deux mois, mais pas toujours aussi précis.

Certains appareils, en particulier ceux qui ont été mis en vente il y a plus de trois ans, ne seront mis à jour que si une vulnérabilité critique est trouvée et corrigée.
