Solder Board-Component View 4	 A photograph of a blue printed circuit board (PCB) with various electronic components. The board is positioned next to a black ruler with white markings in millimeters. The components include several integrated circuits, capacitors, and a small battery. The board has a complex shape with multiple pads and traces.
Solder Board-Component View 5	 A photograph of the same blue PCB from a different angle, showing the underside. The board is again next to a black ruler. This view highlights the solder pads, component footprints, and the internal layout of the board. The components are not visible from this side.

Solder Board-Component View 6	 A photograph of a small green printed circuit board (PCB) component, labeled 'WaterRower' and 'CB10 Rev B', placed on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is oriented vertically, with its longer side parallel to the ruler's markings.
Solder Board-Component View 7	 A photograph of the same green PCB component, labeled 'WaterRower' and 'CB10 Rev B', placed on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is oriented horizontally, with its longer side parallel to the ruler's markings.
