🎵 FAQ

● Player freezes, stuck, or can't turn on ?

1. please check if the player has run out of battery.
2. please use a pin to press the reset button(refer ⑭).

If still, please contact our customer support team.

● Can't hear music when playing?

1. please check if the volume setting is too low.
2. please check if the earphone is plugged improperly or damaged.
3. please check if the bluetooth is connected or not.
4. please check if the external speaker has turned off in setting.

- Can't transfer music files from computer?

When connected to the computer, no driver is needed, please select connecting mode on the screen after connected: charging&transfer / charging&play.

1. please double check if the player is successfully connected to the computer. the internal memory will shows with the name of "F6" and micro SD card will be shown as a removable disk.
2. please check if the SD card is damaged or not.
3. please check if the USB-C cable is damaged or not.

- SD card cannot be used in the player?

1. for the first time of use, please plug the micro SD card into the player, it will help to format the SD card in setting-format.
2. please double check if the SD card is damaged or not.

- Can F6 music player handle playlists?

This F6 player does NOT support customized playlists.

we recommend users to create folders in the computer, after that, copy the folder onto the player and used as playlists.

please enter the music files through "Folder", then, the music files from the folder will be listed.

- Something more about micro SD card.

This F6 Player can support maximum 256GB memory card.

the more files put into the card, the longer time it will take to scan the files by the player.

please remove part of the files if the SD card is almost full, otherwise it may cause stuck / freez problem.

♪ **Term & Condition of Warranty**

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
