8. download the song:

(1). turn off the power

(2). access data cable to the data cable port, and connect to the computer USB, open the power switch, (the power switch is turned to the middle), the computer will automatically install, and read data.

(3). refresh the data and click on my computer, there will be moving magnetic disk, click to enter and you can download and replace your favorite songs. (many of computers will unrecognize data is not working properly due to incorrect computer system or installation. Download the song, you can remove the memory card, use the card reader)

9. Work indicator: The red light is on when charging, the blue light is on when the system is working, it is purple when working and charging at the same time (red and blue are bright at the same time)

Remote control instructions:

1. Press the mode switch button: blue tooth/TF card mode switch
2. Press the on-off button: start/close power system
3. Press numeric button: select music stored in TF card

TIPS

1. The light is dim, the song is hoarse, after this situation, the whole machine will suddenly stop all because of the battery. The power is lower than the lower limit, and the protection circuit works. It can be restored after it is fully charged.
2. When the battery is used for the first time, the electricity is used to protect the circuit, the whole machine stops, then recharge for 4-6 hours, which can increase battery life and discharge time.
3. Pay attention to the safety of the battery, can not be placed in an open flame to prevent explosion, can not be used as a heavy toy, can not be placed in the public trash. Can not be replaced battery.
4. If there is a burst or turbid sound during playback, reduce the volume. The large volume is set for the audio source pole hour, please adjust as needed.

Warning:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
