

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a device, specifically the battery and the main board, laid out on a blue background. A black ruler with white markings is placed horizontally below the components, showing measurements in millimeters. The battery is on the left, and the main board is on the right. The device's black plastic housing is visible on the far right.
EUT Housing and Board View 2	 A photograph showing the internal components of a device, specifically the battery, the main board, and the device's housing, laid out on a blue background. A black ruler with white markings is placed horizontally below the components, showing measurements in millimeters. The battery is on the left, the main board is in the center, and the device's black plastic housing is on the right.

Solder Board-Component View 1	 A photograph of a blue printed circuit board (PCB) component, likely a SIM card reader or similar interface module, placed on a blue textured surface. The component is rectangular with various electronic components, including a large silver-colored chip and several smaller components. It is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The component is oriented vertically, with the ruler placed horizontally to its left. The ruler markings are visible from 0 to 100 mm.
Solder Board-Component View 2	 A photograph of the same blue printed circuit board (PCB) component, showing a different side or a different view. The component is placed on the same blue textured surface. It is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The component is oriented vertically, with the ruler placed horizontally to its left. The ruler markings are visible from 0 to 100 mm.

Solder Board-Component View 3	 A photograph of a blue printed circuit board (PCB) component, labeled '3', showing various electronic components including a large black integrated circuit (IC) and several smaller components. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately 40mm in width and 20mm in height.
Solder Board-Component View 4	 A photograph of a blue printed circuit board (PCB) component, labeled '4', showing various electronic components including a large black integrated circuit (IC) and several smaller components. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately 40mm in width and 20mm in height.
