Connector

A photograph of a green printed circuit board (PCB) populated with various electronic components. A large, dark, rectangular integrated circuit (IC) is the central feature. To its left, there is a vertical row of four silver-colored surface-mount components. Above the central IC, there is a gold-colored square component with the text "4u X" visible. To the right of the central IC, there is a vertical column of components, including a blue capacitor and a larger, tan-colored component. The PCB is populated with numerous other smaller components, including resistors and capacitors, distributed around the central IC.
