

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a device housed in a black plastic casing. The green printed circuit board (PCB) is visible, featuring various electronic components, a large silver heat sink, and a white ribbon cable. A black ruler is placed horizontally below the device for scale, with markings in millimeters and centimeters. The background is a light blue textured surface.
Solder Board-Component View 1	 A close-up photograph of the green PCB component, showing various electronic components, a large silver heat sink, and a white ribbon cable. A black ruler is placed horizontally below the component for scale, with markings in millimeters and centimeters. The background is a light blue textured surface.

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, labeled '2', positioned on a blue textured surface. The component is rectangular with various solder joints and components. It is placed next to a black ruler with white markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm) for scale.
Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled '3', positioned on a blue textured surface. The component is rectangular with various solder joints and components. It is placed next to a black ruler with white markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm) for scale.

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, labeled '4', positioned on a black surface with a white ruler. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The PCB is rectangular and features various electronic components, including a large integrated circuit (IC) in the center, several smaller ICs, and numerous surface-mount components. The board is oriented vertically.
Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, labeled '5', positioned on a black surface with a white ruler. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The PCB is rectangular and features three LEDs labeled 'LED1', 'LED2', and 'LED3' on the right side, and a connector on the left. The board is oriented vertically.
