- 1 Bluetooth Transmitter
- 2 Bluetooth Speakers
- 3 Recharge Cable
- 4 Speaker Extension Cable

Note:

1. The audio cable should be inserted into the audio jack when the receiver is not turned on.
2. The receiver cannot be used when it is charging.

Connecting to smartphones and other devices:

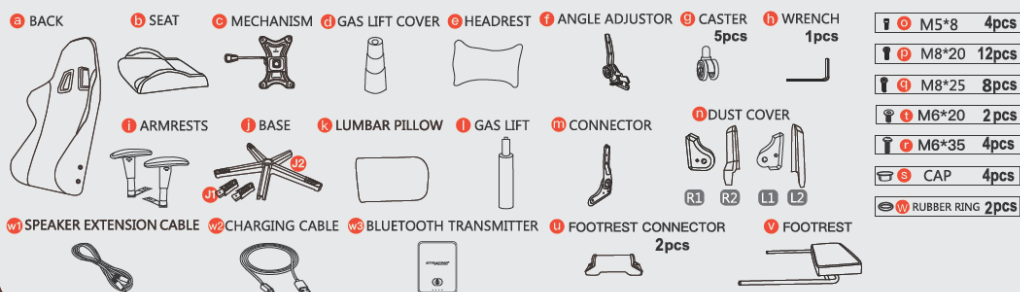

1. Long press the power button for 2s to turn on the Bluetooth receiver. The LED indicator lights flash red and blue, and the voice prompt says: **"Power On"**.
2. Activate the Bluetooth function on your phone and search for wireless devices. Pair your phone to **"GTRACING"**.
3. After successful pairing, voice will prompt: **"Connected"**.
4. If there is no device is connected to the Bluetooth receiver within 5 min, or the connection is broken, voice prompts: **"Disconnected"**.
5. If there is no connection, the Bluetooth receiver will automatically turn off after 5 min.
6. After connection, the blue light will light up. After a period of time, it will enter the energy-saving mode and only one blue light will be on for a long time. Click the power button once to check the remaining battery. (There are 4 blue lights in total, and 1 blue light represents 25% battery).
7. Charge the Bluetooth receiver with Type-C charging cable for 90 min, and it will be fully charged. The LED indicator light flashes blue when charging, and 4 blue lights are always on when fully charged.
8. Function use: When connecting the computer / mobile phone to listen to the music, press the power button to use the pause / play function.
9. In the starting state, press the power button for 2s to turn off the Bluetooth receiver, and the voice prompts: **"Power Off"**.
10. Please make sure the audio output device has Bluetooth function when connecting to the Bluetooth receiver. If your device such as a computer does not have Bluetooth function, we recommend that you purchase a **GTRACING Lycnk** series Bluetooth adapter (USB port) for connection and use, which can help realize Bluetooth wireless playing music and other sound effects.

02 Instructions Before Using Chair of Installation

Please keep the original box incase you might need to return or replace the prouct.

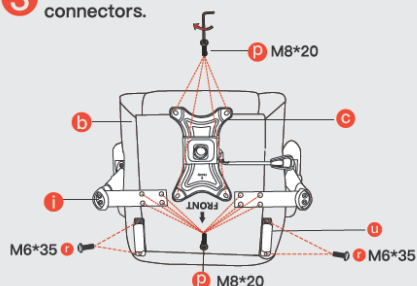

- 1** Place the chair base upside down. Insert the tip of the part **j1** into **j2** and fix with M6*20 screws.

- 2** Insert the casters into the bottom of the base. Install gas lift and insert gas lift cover.

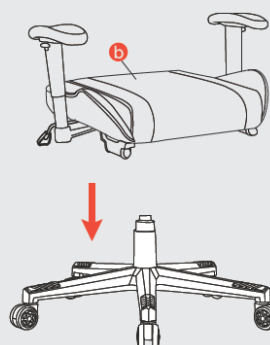

- 3** Install the mechanism, armrests and footrest connectors.

Attention
DO NOT tighten screws completely until all the screws are fixed in the correct position.

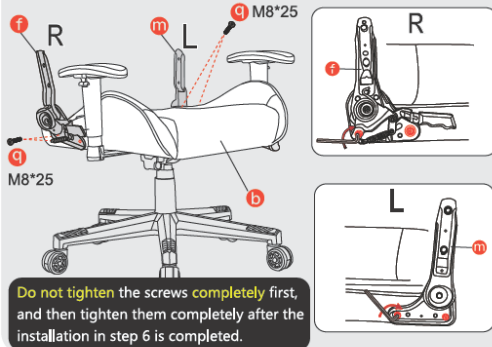

- 4** Place the seat on the gas lift.

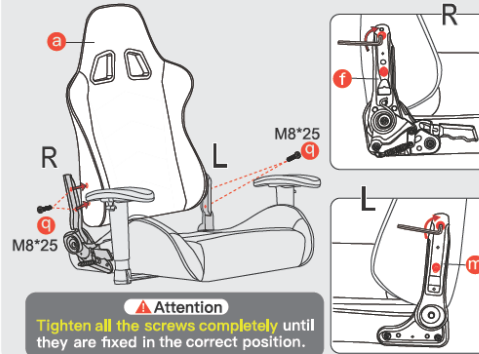

NOTE:Assembly is recommended to be carried out by two people.

Preventing the screws from loosening requires tightening after using a period of time.

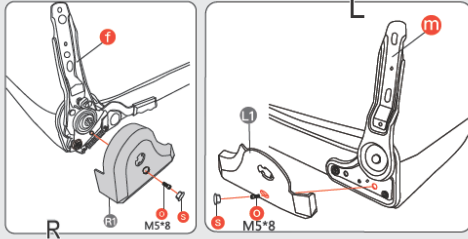

- 5** Align **f** & **m** with the holes of seat, then tighten the screws.

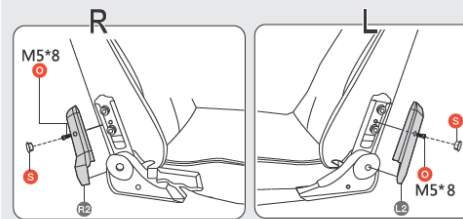

- 6** Align **f** & **m** with the holes of back, then tighten all the screws completely.

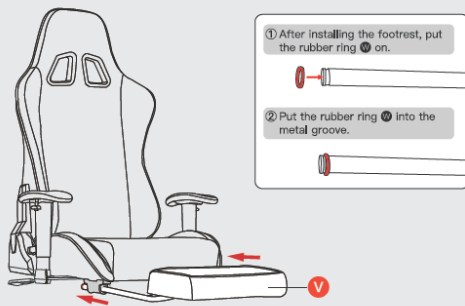

- 7** Put M5*8 screw through the hole of **R2** & **L2** and tighten, then put the cap on.

- 8** Install **R2** & **L2** with M5*8 screw, then put the cap on.

- 9** Install the footrest on the footrest connector.

- 10** Attach the headrest & lumbar pillow.

Frequently Asked Questions:

Q: Why do I hear a creaking sound after using it for a period of time?

A: The mechanism may not fit the seat base. If you hear a creaking sound, please remove the mechanism and reassemble again. Please ensure all the screws are securely tightened.

NOTE: Assembly is recommended to be carried out by two people.

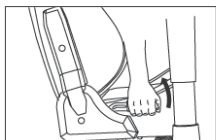

Preventing the screws from loosening requires tightening after using a period of time.

03 Instructions For Use

Functions Display

Please read the function introduction carefully.

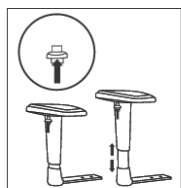

A

Lift the handle to recline and release it to any desired position. Rest on the back when resetting back to its normal position, otherwise the back may rebound rapidly.

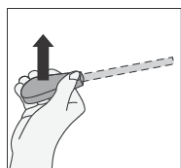

B

Lift up the button on the side of the arm to adjust the arm height, raise or lower to the desired position.

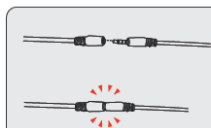

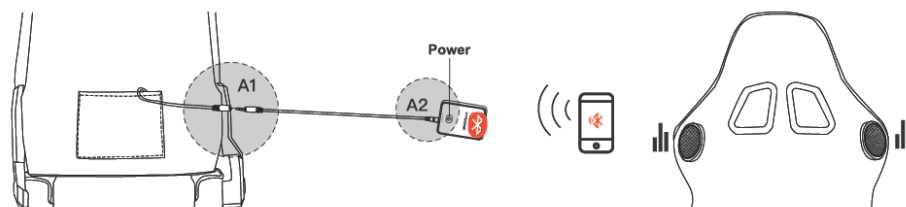

C

Pull upward on lever to achieve height adjustment.

D The speakers of the gaming chair can play audio through Bluetooth function.

When hearing a click, the cables are properly connected in place.

Note: Please ensure that all audio jacks in the area A1 and area A2 are properly connected in place, otherwise one side of the bluetooth speakers may not sound.

NOTE: Assembly is recommended to be carried out by two people.

Preventing the screws from loosening requires tightening after using a period of time.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
