SAFETY WARNINGS AND GUIDELINES

When using electrical products, basic precautions should always be followed:

- **WARNING:** These products may represent a possible shock or fire hazard if improperly installed or attached in any way.
- Products should be installed in accordance with this install guide, current electrical codes.

02

PRODUCT INSTRUCTIONS

03

PRE-INSTALLING

- Measure to the bottom right (before installation).
- Cut to length at corner marks on Strip Light (ensure the power supply is not clipped in at the corner cut).
- Clean the area thoroughly (surface must be free of dust, dirt or grease).
- Avoid bending the strip light which may damage the LEDs.
- Avoid removing and reusing the Strip Light outside times as the adhesive may

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning for Portable device: The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
