Magnetic panel

Support rod

Base Chassis rotates 360 degrees

Specification

- **Material:** PC+ABS+Zinc alloy
- **Input:** 5V=3A, 9V=3A, 12V=2.5A, 15V=3A
- **Output:** 5W,7.5W,10W,15W,25W
- **Transmission Distance:** ≤6mm
- **Charging Efficiency:** 83%MAX
- **Frequency:** 115-205KHZ (5W/7.5W/10W) 360KHZ (15W MPP/25W MPP)
- **Magnet:** 16*N52 Magnets
- **Pulling Force:** 1.8KG MAX

Installation steps

1. Clean the dashboard with a wet cloth, and wait for it to dry

2. Tear off the bottom sticker (DO NOT touch the 3M adhesive with your fingers).

3. Stick the car mount onto the dashboard; press and hold for 30s; wait for **12h** before use for the best performance.

4. Adjust to the optimal viewing angle.

360°

Semi Fold

Upward

Foldable Mode
Currently in fully folded condition (suitable for carrying).

Instruction for Adaptive Metal Ring:

Use with Adaptive Metal Ring with Double Side Sticker.

1. Apply above the adaptive metal ring after peeling off protective film.

2. Snap the adaptive metal ring on the magnetic mount.

1

Clean the phone case before installing

2

Remove the protective film and stickers

3

Example : Samsung Galaxy S21+

Please stick the magnetic ring in the middle of the phone case

4

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
