

# NOVA GO SP1

## Getting started with the NOVA GO SP1

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation

## Accessories (subject to change)

Case

Leather Strap

Cleaning Cloth

Replacement Strings

Adjusting Wrench

Charging Cable  
(Acoustic-Electric Version)

6.35mm Jack Cable  
(Acoustic-Electric Version)

## On/off switch and control button for the smart system

### ① On/off switch and control button for the smart system

Hold the button to turn on and off.

Push the button to switch between the four available tone colors.

The tone color can also be selected via the "Enya Music" app. The button lights up according to the selected tone color: green for Acoustic mode, blue for Reverb mode, light-blue for Delay mode, purple for Fusion mode.

The specific sound effects of each tone color can be adjusted via the "Enya Music" app.

## Jack plate for the smart system

### ① 6.35mm output jack

Output devices can be connected via the output jack, such as amplifier.

### ② Reset button

In case of a system crash or malfunction, the system can be reset with the reset button.

### ③ USB Type-C port

The USB Type-C port can be used to charge a pickup, for USB-upgrades and for an On-The-Go cable to connect audio devices to record audio, such as smart phones, tablets and computers

## Jack plate for the smart system

### ① Push the button twice to turn on Bluetooth.

The button blinks twice to indicate activation (The light's color depends on the activated mode).

Let your smartphone's Bluetooth find your device.

Push the button twice to turn off Bluetooth.

The button blinks red twice to indicate deactivation.

| Weight                             | 2.96 kg                                        |

**FCC Warning**

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Radiation Exposure Statement**

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
