SAFETY INSTRUCTIONS

Before use, please read the product instructions carefully and keep them properly for use in case of urgent need.
During product projection, it is forbidden to touch the air inlet or outlet of the product to avoid damage caused by excessive machine temperature.

Products are not allowed to fall or strike from high altitude to avoid damage to the machine.

To avoid eye injury, do not look directly into the machine lens.

If there is any problem with the product, do not disassemble it without permission. Please contact the professional after-sales assistance department.

WARNING
Do not disassemble, bump, squeeze or throw into fire. If there is serious swelling, do not continue to use. Do not use the battery after it is soaked in water. Do not expose to high temperature.

THE ANNOUNCEMENT

The company has always been in the spirit of excellence, always committed to improve product performance, to provide users with high quality, competitive prices of products. All pictures and function descriptions in this manual are subject to the material object and factory default. The Company reserves the right to improve the product functions and man-machine interface described in the manual without prior notice. The final material object shall prevail.

Please be sure to take good care of your machine, the company will not be responsible for any loss caused by software, hardware misoperation or maintenance, or any loss caused by disclosure of personal information to a third party. The company will not be responsible for any unexpected losses that may occur during the use of the manual or any third party claims arising from the use of the product.

ITEM LISTING

The Host

The Remote Control

Product Specification

Power Adapter

Remarks: Thank you for buying our products. Please check whether the product received is consistent with the list. If the products and accessories you receive do not match the list, please contact customer service immediately.

01 HOME PAGE

1) The home page contains six functions: Eshare, Miracast, HDMI, Settings, media Center, and browser. When selected, press "OK" to enter.

Figure 1 Home Page

Figure 2 HDMI Entry

2) Computers, set-top boxes, game consoles and other equipment as signal output end, home projector as signal input end, the output end needs to have HDMI interface.
3) Connect the output and input through the HDMI cable, and select the HDMI icon of the projector as shown in Figure 2.

02 SETTINGS

1) Select the 'Settings' on the home page and press "OK" to enter. You can set the network, Bluetooth, projection mode, sound, system and other functions as shown in Figure 3 and figure 4 below.

Figure 3 Setting Entry

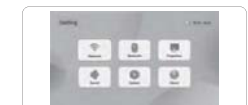

Figure 4 Setting Functions Related

03 NETWORK

1) The first item in the Settings menu is 'Network' as shown in Figure 5.
2) Click 'Network Switch' to enable/disable the network function.
3) In the list below, find the required hotspot and click, then enter the correct password. You can connect the projector to the hotspot (WiFi) to play online videos.
4) In the Connected hotspot bar, press OK to enter the Manual Settings interface where you can modify IP Address and Gateway. You are not advised to change the password as shown in Figure 6.

Figure 6 Network Functions Related

04 BLUETOOTH

1) The second item in the 'Settings' menu is 'Bluetooth' as shown in Figure 7. This Bluetooth is different from the Bluetooth in Bluetooth audio. This Bluetooth takes the projector as the 'host' (sender) and connects to the external Bluetooth audio (Bluetooth headset, and Bluetooth keyboard and mouse). Operation method is similar to android phone connected to Bluetooth headset.

Figure 7 Bluetooth Connection Entry

Figure 8 Bluetooth Functions Related

2) Click 'Bluetooth Switch' to enable/disable Bluetooth function.
3) Click 'Device Name' (default: Home Projector).

4) In the Paired Devices list, you can view the paired Bluetooth devices. In a Bluetooth device bar, press OK to connect/unpair the Bluetooth device.
5) In the 'Available Devices' list, you can view the Bluetooth device to be connected and click the specific Bluetooth device to pair.

05 PROJECTION SETTINGS

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's warranty to operate the equipment.

NOTE: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limit set forth for uncontrolled environments. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
