

User Manual for Y2 Intelligent Headlight Remote Control

Specifications

Model Name: Y2 Remote Control

Input Voltage: 3W

FCC ID: 2A6KL-Y2

Material: ABS

Battery: 2032

Execution Standard: A/ATS-001-2016

Battery Life: Approximately 8 months

I. Button Instructions (Factory default setting: Lock mode, unable to power on)

Remote Control Instructions (One-touch high beam: Press and hold the high/low beam button for maximum brightness)

The remote control features 3 buttons: Power button, High/Low beam button, and Brightness adjustment button.

Press and hold the Power button to turn on. After turning on, briefly press the Power button for strobe warning. Press and hold to turn off.

After turning on, briefly press the High/Low beam button to switch between high and low beams.

Press and hold for maximum brightness.

After turning on, briefly press the Brightness adjustment button to adjust the light brightness.

Pairing a New Remote Control:

Connect the main unit to a USB charging cable.

Double-press the Power button on the main unit. The main light will blink in a breathing pattern.

Press any button on the new remote control. The main light will blink twice, indicating successful pairing between the new remote and the main unit.

WARNING

Charge only in an ambient temperature of 5°C to 40°C.

Before charging, check if the charging cable is in good condition.

When charging, use a USB power adapter.

After charging, always unplug the charging connector.

Do not charge, discharge, or store the device in high-temperature environments, as this may accelerate battery aging.

Store the headlight in a cool, dry place after fully charging it. Do not leave the headlight in a vehicle or near heat sources.

If the battery usage time shortens after proper charging, it indicates the battery has reached the end of its effective lifespan. Replace the battery at a local service center and dispose of the used battery according to local regulations.

If the product is not in use, charge it once every 3 months to prevent battery damage and ensure functionality.

Do not turn on the headlight directly toward the eyes.

When using the headlight for extended periods, avoid touching it to prevent burns.

Do not allow children to use the product without adult supervision.
