
Remote Control Y3 Function Manual

I. Description

This product is a bicycle electric bell remote control.

(1) Product Specifications:

Model: Y3 Remote Control

Input Voltage: 3V

FCC ID: 2A6KL-Y3

Material: ABS

Battery: 2032 Button Cell

Execution Standard: A/ATS-001-2016

Battery Life: Approx. 8 months (varies with usage frequency)

(2) User Interface (UI) - Three-button Remote Control Operation

Power On: Charge to activate for first-time use.

Ringtone Selection: Press the [] button to switch between 6 available ringtones. Cycles through options. (Not available in armed mode).

Volume Adjustment: Press the [+ -] buttons to adjust volume level. Three levels available: High, Medium, Low. Factory default is maximum volume. (Not available in armed mode).

Bell/Locate Function: Press the [] remote button to sound the currently selected ringtone (useful for locating your bicycle). Press and hold to continue ringing for up to 5 seconds.

Pairing: Main unit and remote are pre-paired by default. For special pairing needs:

a. **Remote Pairing Method:** Connect USB charger. Within 30 seconds of charging, press and hold the remote's [+ -] buttons for about 5 seconds. After a 'Bi' sound, enter learning mode. Press any button on the new remote - two "Bi...Bi" sounds indicate successful pairing. Press the [+ -] buttons again to exit learning mode.

b. **Pairing with Paired Remote:** Press and hold the [+ -] buttons on an already paired remote for about 5 seconds. After a 'Bi' sound, enter learning mode. Press any button on the new remote - two "Bi...Bi" sounds indicate successful pairing. Press the [+ -] buttons on the old remote to exit learning mode.

c. **Note:** Main unit can store up to 4 remotes. If pairing a 5th remote, the first remote's code will be overwritten.

d. **Code Deletion:** Connect USB charger. Within 30 seconds of charging, press and hold the remote's [+ -] buttons for about 5 seconds. After a 'Bi' sound, enter learning mode. Press the [] button - one long "Bi..." sound indicates all remote codes have been cleared.

e. **Re-pairing:** Refer to previous methods.

Low Battery Alert: When main unit battery is low, pressing the "bell button" on the remote will trigger both normal alert tone and low battery alert tone "beep..."

Charging: When charging is needed, open the USB-C port cover and connect using DC5V cable. Red indicator light beside USB port illuminates during charging; turns green when fully charged.

Reset & Power Off: Reset to factory settings and power off after quality inspection.

FCC Radiation Exposure Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radio Frequency Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
