USER GUIDE INFORMATION

The Milo Action Communicator (Milo) user guide can be found at [www.milo.com/support](#). Please this guide to learn more about your Milo product and proper usage.

SAFETY PRECAUTIONS

Milo is designed with safety in mind. Like any electrical or electronic device, if used improperly, it has the potential for causing fire, electrical shock, property damage or personal injury. To ensure accident-free operation, follow these guidelines:

- Observe all warnings, precautions, and instructions in the Milo User Guide.
- Stop use if Milo becomes cracked, punctured, or damaged or if Milo functions in an abnormal manner, produces unusual sounds or smells or becomes too hot to touch.
- Do not attempt to disassemble or repair your Milo. Doing so voids the limited warranty and could harm you.
- For additional information on product safety and troubleshooting, please go to [www.milo.com/support](#).

PACKAGING NOTICE

Milo contains radio that emit electromagnetic energy. The electromagnetic fields generated may interfere with pacemakers or other medical devices. If you wear a pacemaker, maintain at least 30 cm (12 inches) of separation between Milo and your device. If you believe Milo is interfering with your pacemaker or other medical device, stop using and consult your physician immediately for specific information to your medical device.

RF (RADIO FREQUENCY) EXPOSURE INFORMATION

For RF exposure information, please go to [www.milo.com/support](#).

MIL0 MAGNET

Avoid placing any metals that contain magnets or is sensitive to magnetism, such as credit cards, bank cards, or magnetic memory devices near Milo. Metals containing magnetically sensitive devices such as above should be kept 15 cm (6 inches) away from Milo. Magnetically sensitive devices such as mechanical watches and measuring devices can be damaged by Milo.

MIL0 BATTERY

The Lithium-Ion battery in Milo cannot be removed and can only be serviced by an authorized service provider. For information about opening or other battery disposal, go to [www.milo.com/support](#).

POTENTIAL HEARING DAMAGE

Permanent hearing loss may occur if Milo is used at high volume, with or without headset. To prevent possible hearing loss, limit the amount of time you use Milo or any headphones.

MIL0 LIMITED WARRANTY

The Milo limited warranty covers the Milo hardware and accessories to be free from defects in material and workmanship under normal use for a two (2) year period from original retail or on-line purchase date. Milo is not warranted against normal wear and tear or damage caused by accident or abuse. You must provide proof of purchase to receive warranty service. For the full warranty terms and conditions, go to [www.milo.com/support](#). You may also request a copy of such terms by mail by contacting Logon Cannon Systems Inc. at PO BOX 1442, Ross, CA 94060. The limited warranty is in addition to other rights you may have provided under country, province, or state consumer laws.

REGULATORY

Additional Milo regulatory information, certification and compliance marks are available on the product, product packaging or within the Milo User Guide found at [www.milo.com/support](#).

USA AND CANADA - FCC AND IC

This device has been tested and found to comply with FCC Part 15, Innovation, Science and Economic Development. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) that this device must accept any interference received, including interference that may cause undesired operation. A copy of each Declaration of Conformity may be found at: [www.milo.com/mil0ccf](#).

The SAR limit set by the FCC and ICED is 1.6W/kg. For wireless operation, this device has been tested and meets the FCC and ICED RF exposure guidelines at a minimum separation distance of 5 mm from the body. RF exposure compliance with any third party accessory was not tested or certified; any third party accessory use is not recommended. A minimum separation of 5mm must be kept when in wireless operation. In Canada, operation of 5150-5550 MHz is restricted to indoor use only.

EU COMPLIANCE WITH 2014/53/EU RADIO EQUIPMENT DIRECTIVE

Milo complies with the requirements of Article 10(1) as it can operate in at least one Member State as examined. In accordance with Article 10(2)(c), in cases of restrictions on putting into service, information available on the packaging and allow the identification of the Member State or the geographical area within a Member State where restrictions on putting into service or requirements for authorization of use exist. In all EU member states, operation of 5200-5200 MHz is restricted to indoor use only. Specific Absorption Rate (SAR) information: The EU SAR limit for Body Wear is 1.0W/kg and for Limbs is 0.2W/kg. This device should keep given separation distance for wireless operation. The Milo and its electrical accessories should be handled over to a certified collection point for recycling or proper disposal at the end of their life. Milo's EU representative is AGPFA GmbH, Hiltbach 78, 8250 Hurl, Austria.

Function	Frequency	Max. Transmit Power
Bluetooth	2400-2480 MHz	9 dBm (EIRP)
Bluetooth LE	2400-2480 MHz	6 dBm (EIRP)
Wi-Fi a/GS	2412-2472 MHz	19 dBm (EIRP)
Wi-Fi B/G	2412-2472 MHz	18 dBm (EIRP)
Wi-Fi G	5150-5550 MHz	17 dBm (EIRP)
Milo a/GS	2400-2480 MHz	17 dBm (EIRP)
Milo Band B	865-866 MHz	12 dBm (EIRP)
Milo Band L	865-866 MHz	12 dBm (EIRP)
Milo Band P	865.6-866.65 MHz	22 dBm (EIRP)
