

Product Description

Biamp is a BLE5.0 Bluetooth remote control, which uses wireless communication to control the terminal equipment and uses two CR2032 cell batteries for power supply

bluetooth name: biamp

Pairing method: long press the number "1" + "2" key for 3 seconds

Fixed frequency test: long press the "OK" button and then power on, enter the fixed frequency 2.44Ghz

Product use environment

1. Power supply voltage: DC3.0V 2 CR2032 button batteries connected in parallel
2. Voltage range: 2.4V-3.3V
3. Working temperature: -10°C~40°C
4. Working humidity: 10%-90% RH
5. Storage temperature: -40°C~80°C
6. Storage humidity: 5%-95% RH

Electrical performance parameters:

1. Use MCU model BK3432 (ZK18-01) QFN32 4*4
2. Software version: V1.0
3. Crystal oscillator: 16Mhz, 10ppm, CL=9pf, internal resistance less than 40 ohms, package: 3225
4. Bluetooth frequency: 2400~2483Mhz
5. Quiescent current: $\leq 10\mu A$
6. Dynamic current: $\leq 5mA$
7. Remote control distance: ≥ 10 meters

RF exposure statement

This equipment complies with the FCC and ISED radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Cet équipement est conforme aux limites d'exposition aux rayonnements de la FCC et de l'ISED établies pour un environnement non contrôlé. Cet émetteur ne doit pas être co-localisé ou fonctionner en conjonction avec une autre antenne ou un autre émetteur.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

IC WARNING

This device contains licence-exempt transmitter(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L' émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d' Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L' exploitation est autorisée aux deux conditions suivantes:

1. L' appareil ne doit pas produire de brouillage;
2. L' appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d' en compromettre le fonctionnement.
