Dear Madam or Sir,

Re: Request for labeling exemption

We, **KAGA FEI Co., Ltd.** would like to inform you it is not possible for our product, **ES4L15** to bear the FCC ID on product surface based on the applicable FCC Part rules.

Marking on the module is written by Laser marker on the metal shielding case and the labeling area is less than **5.15x3.25mm**. Due to the nature of the size, it is not practicable to place the FCC ID on the product surface in a size enough to be readable.

Alternatively, we will place the ID in a prominent location in the user manual and the packaging.
For more details, please refer to the enclosed documents.

Any queries you may have, please do not hesitate to contact us.

1. Product information

- Model Name: ES4L15
