KAGA FEI Co., Ltd. has spent substantial effort in developing this product and it is one of the first of its kind in industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

Permanent Confidentiality:

The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.

(*** Exceptional case for Permanent Confidentiality for these Exhibits by PAG only)

For internal photographs, the module's internal circuitry, including RF components, is fully encapsulated with resin. The chipset and associated RF circuits cannot be accessed without destroying the device.

The product is not designed to be opened or serviced by the end user, and no disassembly is possible using common tools. Therefore, the internal design is not accessible under normal use conditions.

The internal photographs reveal proprietary RF layout and antenna-related design details that cannot be obtained from the product itself. Public disclosure would increase the risk of reverse engineering and result in substantial competitive harm. Based on these characteristics, Permanent Confidentiality for the internal photos is justified.

Short-Term Confidentiality:

The applicant requests the exhibits selected above as short term confidential be withheld from public view for a period of 180 days from the date of the Grant of Equipment Authorization and prior to marketing. This is to avoid premature release of sensitive information prior to marketing or release of the product to the public. Applicant is also aware that they are responsible to notify TUV Rheinland in the event information regarding the product or the product is made available to the public. TUV Rheinland will then release the documents listed above for public disclosure pursuant to [FCC Public Notice DA 04-1705](#).

Sincerely,
