

FCC Part 15B Notices:

1.Modification Statement

Any modifications made to this device that are not approved by Vemaventuri AB may void the authority granted to the user by the FCC to operate this equipment.

2.Compliance Statement

The ISC Hub and ISC Node complies with Part 15B of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

3.Class A interference Statement

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

4.Exposure Statements

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
