

FCC COMPLIANCE STATEMENT

The ISC Link with FCC ID: 2A60FPICBKM03 has been tested and found in compliance with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications.

The operation of the ISC Link in a residential area can cause harmful interference in which case the user will be required to correct the interference at his own expense.

Furthermore, ISC Link complies with part 15 of the FCC Rules and the operation is subject to the following two conditions:

- (1) this device may not cause harmful interference.
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: To comply with FCC/IC RF exposure limits for general population / uncontrolled exposure, the antenna(s) used for this transmitter must be installed on outdoor permanent structures to provide a separation distance of at least 20 cm from any persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE: Changes or modifications to the equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
