Home interface

How to use Wireless Android Auto or CarPlay**Note for Android users:**

Before using Android Auto, please make sure you have the latest Android Auto App installed and enable "Wireless Android Auto" in Android Auto settings.

- On your **Home** interface tap "Android Auto" or "CarPlay" it will show you the name and password of your AutoSky lite AI Box.
- Search on your smartphone's or iPhone's **Bluetooth** for your AI box and enter the given password.

**WiFi Connectivity**

In order to use some of your AutoSky lite AI Box features such as Netflix or Youtube, you will need to set up a wifi network.

- Tap on settings on your **Home** interface and enter the WiFi menu.
- Select the WiFi network you will use and enter the password.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
