Justification for Re-use of Radio Test Results

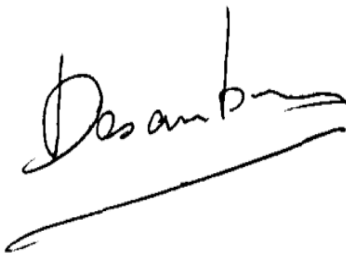

We, TessolveDTS Inc., believe that the conducted signal test data on original reports provided by the Quectel Wireless Solutions Company Limited FCC ID:XMR2021EM05G approved on June 23, 2021 and provided by Quectel Wireless Solutions Company Limited can be re-used for the following reasons:

1. Applicant has built in the radio module according to the specific radio module integration guides.
2. No changes have been made on radio module except LTE module antenna.
3. Re-test the conducted power for spot check verification, the radiated spurious emission, and re-evaluated the RF Exposure.
4. Below mentioned Bands are considered in the end product.

LTE Bands -

2,4,5,7,12,13,14,25,26,38,41,66,71.

WCDMA Bands - 2,4,5

A handwritten signature in black ink, appearing to read 'Desombre', with a long horizontal line underneath.
